Politics of Social Psychology Jarret T. Crawford, Lee Jussim, 2017-07-28 Social scientists have long known that political beliefs bias the way they think about understand and interpret the world around them In this volume scholars from social psychology and related fields explore the ways in which social scientists themselves have allowed their own political biases to influence their research These biases may influence the development of research hypotheses the design of studies and methods and materials chosen to test hypotheses decisions to publish or not publish results based on their consistency with one's prior political beliefs and how results are described and dissemination to the popular press The fact that these processes occur within academic disciplines such as social psychology that strongly skew to the political left compounds the problem Contributors to this volume not only identify and document the ways that social psychologists political beliefs can and have influenced research but also offer solutions towards a more depoliticized social psychology that can become a model for discourse across the social sciences

Social Class Annette Lareau, Dalton Conley, 2008-07-10 Class differences permeate the neighborhoods classrooms and workplaces where we lead our daily lives But little is known about how class really works and its importance is often downplayed or denied In this important new volume leading sociologists systematically examine how social class operates in the United States today Social Class argues against the view that we are becoming a classless society The authors show instead the decisive ways social class matters from how long people live to how they raise their children to how they vote The distinguished contributors to Social Class examine how class works in a variety of domains including politics health education gender and the family Michael Hout shows that class membership remains an integral part of identity in the U S in two large national surveys over 97 percent of Americans when prompted identify themselves with a particular class Dalton Conley identifies an intangible but crucial source of class difference that he calls the opportunity horizon children form aspirations based on what they have seen is possible The best predictor of earning a college degree isn't race income or even parental occupation it is rather the level of education that one's parents achieved Annette Lareau and Elliot Weininger find that parental involvement in the college application process which significantly contributes to student success is overwhelmingly a middle class phenomenon David Grusky and Kim Weeden introduce a new model for measuring inequality that allows researchers to assess not just the extent of inequality but also whether it is taking on a more polarized class based form John Goldthorpe and Michelle Jackson examine the academic careers of students in three social classes and find that poorly performing students from high status families do much better in many instances than talented students from less advantaged families Erik Olin Wright critically assesses the emphasis on individual life chances in many studies of class and calls for a more structural conception of class In an epilogue journalists Ray Suarez Janny Scott and Roger Hodge reflect on the media's

failure to report hardening class lines in the United States even when images on the nightly news such as those involving health crime or immigration are profoundly shaped by issues of class Until now class scholarship has been highly specialized with researchers working on only one part of a larger puzzle Social Class gathers the most current research in one volume and persuasively illustrates that class remains a powerful force in American society *Knowledge Evolution and Societal Transformations* Jerald Hage,2020-04-30 Knowledge evolution punctuates the previous equilibrium of society and requires us to develop adaptive solutions One new rule is that as the discovery of new knowledge grows more difficult more complex organizational and institutional arrangements have to be adopted Knowledge growth is accelerating because not only are there more creative individuals and organizations developing radical innovations but also innovative regions are facilitating both of these trends The discussion of four social regions and the kinds of selves produced help explain partisan divides and integrate the social psychological literature The growth in knowledge produces two kinds of social changes In the nature of the social structure and the kinds of institutional problems that have to be solved The discussion of changes in the stratification system in the choice of organizational form and in the spread of inter organizational networks with tight connections heterogeneous social capital allows us to update Marx Weber and Durkheim The new adaptive problems include growing inefficiencies in labor product and public markets and the failure of many existing programs The proposed solutions are the creation of coordinated systemic networks in each of these areas which integrates the comparative institutional literature neoclassical economics and political science *The Routledge International Handbook of Valuation and Society* Anne Krüger,Thorsten Peetz,Hilmar Schaefer,2024-10-15 The Routledge International Handbook of Valuation and Society builds on the growing research interest in practices of valuation throughout contemporary society providing an up to date overview of the different facets of research in the sociology of valuation The handbook is divided into five major sections with attention to the treatment of valuation in major areas of sociological theory as well as its key concepts discourses and approaches Part I Theoretical perspectives Part II Central valuation practices in societal spheres Part III Cross cutting valuation practices Part IV Valuation and societal change Part V Reflections Together the chapters in this book characterize distinctive practices of valuation across different societal spheres such as education and science arts and culture economic life the environment or digital culture and social media They also examine the role of valuation in contemporary society and consider the ways it effects social change This seminal handbook aims at taking stock of the development of the study of valuation with a selection of topics that are important for understanding core perspectives and developments as well as anticipating its future orientation It will appeal to scholars across the social sciences with interest in the ubiquity of the valuation practices and its effects on social life **Inequality** David Grusky,2018-05-04 This book redirects the focus of public debate to issues of gender and racial segregation and suggests that they should be fundamental to thinking about the status of black Americans and the origins of the urban underclass It is a starting point for students and advanced scholars of

inequality *Foundations of Sociology Text and Reader* Peggy Shifflett, Rammy Haija, 2007-08-07 *The New Walford* Ray Lester, 2005 Covers 15 broad subject groupings social sciences generic psychology sociology social work politics government law finance accountancy industries business education sport media information and tools for information professionals
