*Essential Creativity in the Classroom* Kaye Thorne, 2007-01-24 *Essential Creativity in the Classroom* is about giving all children the opportunity to fulfil their potential. It is about developing real partnerships between parents, teachers, businesses and the community, identifying best practice, finding teachers that are inspiring and schools that are committed to providing a special learning experience. This is a book to inspire, excite and stimulate creative approaches to learning. Without creativity we have no real innovation; we need people who are capable of thinking crazy out of the box thoughts; we need people who shake us out of complacency. This book covers in detail topics such as: What do teachers need to do to help children make the most of their creativity? How do children prefer to learn? What can teachers do to stimulate children's creativity? Building self-esteem, helping individuals to believe in themselves, supporting a young person in making creative career choices. Packed with proven practical advice, this dip-in guide identifies the best ways of supporting pupils as they navigate their exciting journey through a world of learning and discovery.

**Learning Environment and Design** Will W.K. Ma, Kar-wai Tong, Wing Bo Anna Tso, 2020-11-07 This special edition of the Educational Communications and Technology Yearbook Series bears a title of Learning Environment and Design: Current and Future Impact. It provides a timely forum to share theoretical and practical insights in both the local and international contexts in response to the fact that new media and technologies have infiltrated and shaped the learning environments from mere physical spaces into multifaceted possibilities, impacting the ways individuals teach and learn. Designs of learning environments to harness technologies appropriately to engage learners better, as well as the roles of learners and educators play in this changing learning environment, are examples of important global issues in the discourse of the contemporary educational developments. Having gathered a diverse collection of research papers written by scholars and practitioners in the fields of education, communication and humanities across Asia, Australasia, Europe and the United States, this book gives readers a cross-cultural background on the developments of technological designs and educational practices, investigating areas in redefining of quality education, online learning and blended learning, new media in education, gamification, AI and innovative learning technologies. Aimed to catalyze knowledge exchanges and provide fresh views on interdisciplinary research, the book sheds light on how emerging technologies can be adapted in the fields of education and communication so as to facilitate the current and future designs of learning environments to improve learners' performances.
