Extreme Programming and Agile Methods - XP/Agile Universe 2002 Don Wells, Lauris Williams, 2003-08-02 The second XP Universe and first Agile Universe brought together many people interested in building software in a new way. Held in Chicago August 4-7 2002, it attracted software experts, educators, and developers. Unlike most conferences, the venue was very dynamic. Many activities were not even well defined in advance. All discussions were encouraged to be spontaneous. Even so, there were some written words available, and you are holding all of them now. We have collected as much material as possible together into this small volume. It is just the tip of the iceberg, of course. A reminder to us of what we learned, the people we met, and the ideas we expressed. The conference papers, including research and experience papers, are reproduced in these proceedings. Forty-one papers were submitted. Each submitted paper received three reviews by program committee members. The program committee consisted of 40 members. Papers submitted by program committee members were refereed separately. This ensured that reviewers could provide an honest feedback, not seen by the paper submitters. In many cases, the program committee shepherded authors to significantly improve their initial submission prior to completing the version contained in these proceedings. In the end, the program committee chose 25 papers for publication, 60% acceptance.
