

ACCOUNTING PRINCIPLES

By Bojan Radojicic

RELEVANCE

Financial information should be relevant to the decision-making needs of users. It should have predictive value, confirmatory value, or both.

FAITHFUL REPRESENTATION

Financial information should faithfully represent the economic phenomena it purports to represent. It should be complete, neutral, and free from error.

SUBSTANCE OVER FORM

Transactions and events should be accounted for and presented in accordance with their substance and economic reality, rather than merely their legal form.

PRUDENCE

When uncertainty exists, caution should be exercised in the recognition and measurement of assets, liabilities. Anticipated losses should be recognized immediately, while gains should be recognized only when realized.

COMPARABILITY

Financial information should be presented in a manner that enables users to compare it with information from other entities and across different periods.

UNDERSTABILITY

Financial information should be presented in a clear and concise manner, making it understandable to users with reasonable knowledge of business and economic activities.

TIMELINESS

Financial information should be available to users in a timely manner, allowing them to make informed decisions.

VERIFABILITY

Financial information should be capable of being verified or corroborated by independent and knowledgeable parties.

GOING CONCERN

Unless there is evidence to the contrary, it is assumed that the entity will continue to operate for the foreseeable future. Financial statements are prepared on a going concern basis.

MATERIALITY

Financial information should be material if omitting or misstating it could influence the decisions of users. Materiality depends on the nature and magnitude of the item or information.

Financial Accounting Get it Straight Errol Deacon,2021-05-31 This book is different The book focusses on the practical aspects but instead of jargon and vague language we use step by step illustrations heading straight to the topic on hand Of course there are chapters that are almost all traditional paragraphs but it plays a supporting role Recall the fable of the three little pigs The wolf could not destroy the pig s house made of bricks What does that have to do with this Skip over or fail to master the basics of Accounting The Language of Business will not only regret that decision but may have to come back and master them anyway Accounting is debit and credit at the core as computers are 0 1 I maintain failure to master the basics principles is the root cause to have difficulties at the advance levels In fact for some small businesses these are the only steps needed to grasp the essentials that comprise the financial reports and hopefully take steps to further one s accounting education Even the basic accounting software will generate the financial statements with a few clicks but the old saying GIGO garbage in garage will make a mockery of those reports if you don t understand what makes up those figures Too often the input person has no idea what data they are inputting into the accounting program That might be boom time for their outside accountants that bill extra per hour to correct their input error s We don t have to revert to manual accounting but do you have to understand from the manual accounting standpoint the accounting flow The first chapter A Short History of Accounting Given this book is extremely cut and dry could be considered a waste of time but it enlightens the reader that accounting in some format is as old a civilization itself The process begins with a salaried employee launching a home based consulting business and investing in a laundromat while maintaining employment A Partner is later taken for the laundromat Both businesses started out as sole proprietorships and then were converted into Limited Partnerships and Limited Companies Then debits and credits We formed a limited company Healthy Living which sold health products over the counter and which doesn t happen in real life they offered health members and other services This was done in order to create accounting for inventory accounting for memberships and services The company is funded property acquired Fixed Assets office equipment etc Once operating sales purchases payroll receivables payables transferring funds the trial and the adjusted trial balance and transferring those figures to the financial statements There are more detailed chapters covering manufacturing cost of sales contracts and depreciation
