- **Planning and organization:** Project managers are responsible for developing project plans, defining objectives, and creating a roadmap to achieve project goals. They break down complex projects into manageable tasks, establish timelines, and allocate resources effectively. Their meticulous planning and organization skills ensure that projects stay on track and are completed within the specified time and budget constraints.

Project managers identify and assess potential risks, develop mitigation strategies, and proactively manage uncertainties throughout the project lifecycle. By being proactive and prepared, project managers minimize the impact of risks and ensure project objectives are met.
- **Stakeholder management:** Projects involve various stakeholders, including clients, team members, executives, and external partners. Project managers act as a bridge between these stakeholders, ensuring effective communication, managing expectations, and addressing any concerns or issues.
