*A study investigating the factors that cause delays and cost overruns in construction projects in India* Kushal Agrawal, 2013-12-09 Master s Thesis from the year 2013 in the subject Business economics Business Management Corporate Governance grade 62 University of Leeds course Msc Management Project Management language English abstract Anyone who has got a rework or renovation work done in their house can tell you what a troublesome activity it is Not only that it seems to take forever to be completed and is heavy on the wallet Even an international icon like

the Sydney Opera house which has always been Australia's pride was delayed by 10 years with its budget shooting up by 14.5 times its estimated budget of 7 million. There are plenty of such examples available. It is very common for construction projects to get delayed and outrun their budget. This is a tough scenario faced by almost all projects around the world with India not being an exception. Thus the researcher has undertaken this research to investigate the factors responsible for delays and cost overruns. Both secondary research and primary research have been carried out and the barriers have been identified. Such barriers create problems that hinder the efficiency and progress of a project making it lag behind its schedule. The factors identified in the secondary research are compared to the findings of the primary research to see if they hold true in the Indian context.

### **Foundations of Clinical Nurse Specialist Practice** Janet S. Fulton, Brenda L. Lyon, Kelly A.

Goudreau, 2009-10-16 Designated a Doody's Core Title. This comprehensive book addresses pertinent issues for clinical nurse specialists from clinical interventions to nursing care delivery and nursing leadership. This is a wonderful addition to the field of nursing. Score 100/5 stars. Doody's Foundations of Clinical Nurse Specialist Practice serves as a comprehensive textbook and practice reference for graduate level CNS students and practitioners.
