As a response to the increasing complexity of the business environment, this book deals with ethical issues in management, corporate governance, strategy, maps the resource based view of an organisation as well as mentorship and coaching. Key lectures include relevant examples taken from South African and African organisations. Numerous illustrations with informative graphics, diagrams and charts. A logical structure to aid accessibility. Case studies, discussion questions, MCQs at the end of each chapter. Multimedia support materials for prescribing institutions. This book is widely prescribed by institutions and will be the preferred book of many major businesses for use in their management and leadership training programmes.
