## LECTURE NOTES:

### WEEK 1 - Introduction: Definition of Architecture and the Architect:

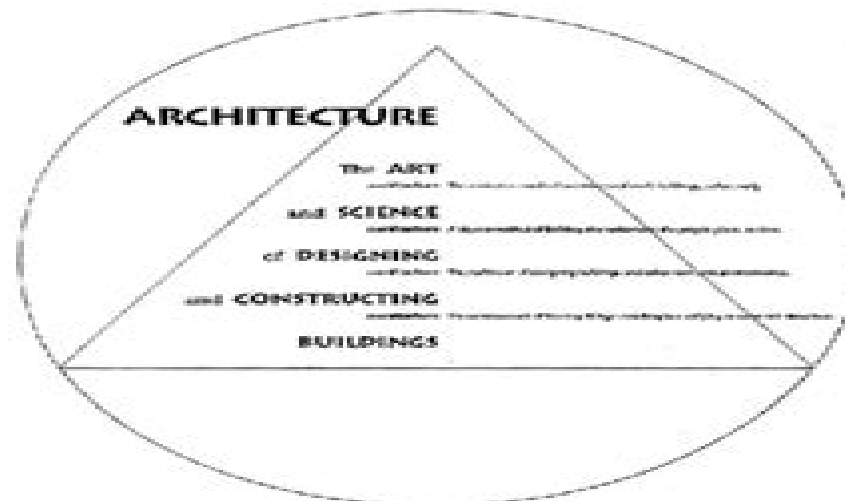

#### 1. Definition of Architecture

Architecture could be basically defined as 'the art and science of designing and constructing buildings'. As a word, 'architecture' can carry several other meanings, such as:

1. The product or result of architectural work: buildings, urban areas and landscapes.
2. A style or method of building characteristic of a people, place or time.
3. The profession of designing buildings and other habitable environments by architects.
4. The conscious act of forming things resulting in a unifying or coherent structure.<sup>1</sup>

In its most simple form, architecture is the design and organization of spaces, and in its most common form, it is the design of buildings, their interiors and surrounding spaces.

The architect acts a designer, who can work in a wide range of scales, from a scale as large as the planning of a city, up to a scale as small as the design of a chair.

Ching, F., Visual Dictionary of Architecture

#### 2. Etymology of the Word 'Architecture'

Etymologically (in terms of the root of the word), the word 'architecture' comes from the Greek *arkhitekton* (*ἀρχιτέκτων*), which is a combination of the word *arkhi*, meaning "chief" or "master", and *tekton*, meaning "mason" or "builder". In line with the etymology, architecture

Untimely Moderns Eeva-Liisa Pelkonen, 2023-01-01 A novel exploration of the idea of nonlinear time and its place at the heart of modern art and architecture. Through much of the twentieth century a diverse group of thinkers engaged in an interdisciplinary conversation about the meaning of time and history for modern art and architecture. The group included architects Louis Kahn, Everett Victor Meeks, James Gamble Rogers, Paul Rudolph and Eero Saarinen, artists Anni and Josef Albers, philosopher Paul Weiss and art historians Henri Focillon, George Kubler, Sibyl Moholy-Nagy and Vincent Scully. These figures were unified by their resistance to the idea that to be considered modern art and architecture had to be of its time as well as by the pivotal role that Yale University held as a backdrop to their thinking. These thinkers sponsored a new kind of approach, one that Eeva Liisa Pelkonen terms 'untimely', emphasizing a departure from a sequential course of events. Ideas about temporal duration, new tradition, the presence of the past and the shape of time were among the concepts they explored. With an interdisciplinary focus, Pelkonen reveals previously unexplored connections among key figures of American intellectual and artistic culture at mid-century whose works and words would shape modern architecture.
