JavaDoc for `jsf.util.JsfCrudELResolver`:

`public Object getValue(ELContext context, Object base, Object property)`

Attempts to resolve the given property object on the given base object.

If this resolver handles the given (base, property) pair, the property resolved property of the ELContext object must be set to true by the resolver, before returning. If this property is not true after the method is called, the caller should ignore the return value.
