Natural Resource and PPP Infrastructure

Projects and Project Finance Takao Higuchi, 2018-09-25 This is one of the first books that comprehensively explains fundamental theories of natural resource and infrastructure public private partnership NRI PPP projects and project finance NRI PPP projects and project finance have been adopted in natural resource development including oilfield development mine development and liquefied natural gas production manufacturing such as petrochemistry which uses crude oil and infrastructure related projects such as railways roads airports ports water supply waste treatment communications and electricity An important concern during negotiations among the various stakeholders is the lack of congruence between theories underlying NRI PPP projects and project finance and the particular real life business considerations of the subject project and lack of understanding of the key theories Studies that help us understand NRI PPP projects and project finance

have been developed based on economic theories such as contract theory and the economics of law by several distinguished professors. Until now however, in financial institutions staff in departments that specialize in project finance have developed an understanding of the theories underlying NRI PPP projects and project finance primarily through on-the-job training during which business points of view were passed on. Principles and theories regarding NRI PPP projects and project finance have not been taught through textbooks in these firms. In fact, there are only a few books that explain the fundamental theories for actual project structures or actual project finance. This book attempts to fill that gap by making clear the fundamental theories that exist behind the actual projects and project finance in relation to natural resources and infrastructure. Readers of this book will include not only professionals in various private sectors and banks but also those involved in PPP projects in the public sector.

[Public-Private Partnerships for Infrastructure](#) E. R. Yescombe, Edward Farquharson, 2018-05-29

Public Private Partnerships for Infrastructure: Principles of Policy and Finance Second Edition explains how public private partnerships are prepared, procured, financed and managed from both the public and private sector perspectives. As the use of public private partnerships continues to develop worldwide both in the area of public policy and private financing and contracting, the Second Edition of this leading textbook captures and explains the latest approaches, providing a comprehensive all-round guide for those on both the public and private sector sides of the table. Emphasises a step-by-step approach within a comprehensive cross-referenced format. Includes clear explanations of PPP evaluation, structuring and financing concepts for the benefit of those new to the topic; no prior knowledge is assumed or required. Provides detailed reference points for more experienced practitioners. Draws from the authors' experience and practice in PPP markets worldwide to provide a perspective on practical application of the key underlying principles. Includes an extensive glossary of technical and financial terms used in the PPP sector. Includes more technical information and a stronger legal perspective than other books. Emphasizes a step-by-step approach within a comprehensive cross-referenced format. Expands and updates the historical backgrounds and political contexts of public private partnerships.

Project Finance Graham D. Vinter, 1998

Examining the legal issues involved in the tendering, negotiation, financial structuring and management of infrastructure and energy projects, this second edition of the text is updated to reflect over 200 new issues and developments. The volume is written in a practical way to provide guidance on the specific parts of many branches of law that are brought into play in a typical project financing. New sections on risk allocation in power purchase agreements, co-generation, the UK's Private Finance Initiative and the running of bids in the context of compulsory competitive tendering regimes are also included. There are expanded sections on export credit agencies, force majeure and operating and maintenance agreements.
