Imperialism Eugene M. Wait, 2003 This sweeping but non cohesive narrative portrays events related to British American Japanese Russian and other imperialisms during the period 1895 to 1905 The text jumps back and forth between countries and between policy levels and military engagements without much sense of setting out some form of historical thesis Annotation c 2003 Book News Inc Portland OR booknews com

Empire, Colony, Genocide A. Dirk Moses, 2008-06-01 In 1944 Raphael Lemkin coined the term genocide to describe a foreign occupation that destroyed or permanently crippled a subject population In this tradition Empire Colony Genocide embeds genocide in the epochal geopolitical transformations of the past 500 years the European colonization of the globe the rise and fall of the continental land empires violent decolonization and the formation of nation states It thereby challenges the customary focus on twentieth century mass crimes and shows that genocide and ethnic cleansing have been intrinsic to imperial expansion The complexity of the colonial encounter is reflected in the contrast between the insurgent identities and genocidal strategies that subaltern peoples sometimes developed to expel the occupiers and those local elites and creole groups that the occupiers sought to co opt Presenting case studies on the Americas Australia Africa Asia the Ottoman Empire Imperial Russia and the Nazi Third Reich leading authorities examine the colonial dimension of the genocide concept as well as the imperial systems and discourses that enabled conquest Empire Colony Genocide is a world history of genocide that highlights what Lemkin called the role of the human group and its tribulations Monthly Supplement, 1927

Francophone Post-colonial Cultures Kamal Salhi, 2003-01-01 A collection of discussions of literary texts from areas as diverse as Europe and North Africa the Caribbean and South Asia regions of the world that seem to have only their language in common But despite enormous differences among all the countries where French is spoken Francophone literatures tend to deal with a similar spread of issues This volume positions the study of the Francophone world and its cultures as a comparative project in which post colonial Francophone cultures and the specific alterity of these cultures emerge as inextricable from and essential to an understanding of modern France The volume is organized by region with an international roster of contributions and includes summaries of selected creative and critical works and a guide to selected terms and figures
