

CHAPTER 5: RESEARCH DESIGN AND METHODOLOGY

5.1 INTRODUCTION

In Chapter One an orientation of the research was provided. This study focuses on the needs and competencies of school sport managers. These are required for the sport management training of educators, in accordance with the diverse needs of South African schools (cf. par. 1.3.2, p. 12). As a result of the problem statement referred to in Chapter One, the all-encompassing aim of this study is to develop a sport management programme for educator training. It is essential to analyse the existing knowledge, as a background to the current study. In this way, the researcher endeavours to generate new knowledge, which could make sport management and educator training more purposeful, efficient and sustainable. Consequently, this chapter strives to operationalise the theme of the research design and methodology in the current study, as well as to substantiate the choices made in the study.

The research design is applied so that suitable research methods are used to ensure the attainment of the goals and objectives set out in Chapter One. Hence the **reason (rationale)** for a discussion of the research design and methodology: Firstly, this is to provide the plan or blueprint for the research. Secondly, this should enable the researcher to anticipate the appropriate research design, to ensure the validity of the final results. Nevertheless, it is important that different views are analysed; thereafter, the methodology will be discussed. However, first it is important to consider a theoretical framework for the research design.

5.2 THEORETICAL FRAMEWORK FOR THE RESEARCH DESIGN AND METHODOLOGY

One of the challenges facing the researcher is the difficulty in relating to and understanding the role and importance of theory in research. Consequently, the concept of theory necessitates some clarification. In this regard, Verma and Mallick (1999:6) as well as Blumberg, Cooper and Schindler (2011:36) are of the opinion that the main role of theory is to help to guide the researcher. In the social sciences, it usually implies a set of statements describing and explaining the relationship between human behaviour and the factors that affect or explain it. Paraphrasing Best and Khan (2006:10), a theory could best be described as an attempt to develop a general explanation for some phenomenon. More specifically, a theory, according to these authors, defines non-observable constructs that are inferred from observable facts and events, and are thought to have an effect on the phenomenon under study. It further implies that a theory describes the relationship among key variables for explaining a current state or predicting future concurrences.

Development of a new competence and behaviour model for skills in working with people for project managers Eddie Fisher, 2008-06-10 Doctoral Thesis Dissertation from the year 2006 in the subject Business economics Business Management Corporate Governance The Open University Open University Milton Keynes United Kingdom language English abstract The growing penetration of projects as a way of organising work in many organisations has created a shortcoming between what companies expect in terms of project delivery and the way in which their project managers execute projects The constantly changing demands have created a need for project managers to manage the people in their projects more effectively to meet these expectations A review of the general and project management literature has revealed that a shortcoming exists and the nature of this shortcoming What used to be appropriate skills in working with people are no longer adequate now that working practices are changing in response to increases in pressures to achieve better results This thesis has developed a competence and behaviour model for skills in working with people for project managers that provides the means to fill the shortcoming The exploration to develop this model has taken place mainly through interviews with project managers from the community of practice in United Kingdom organisations supplemented by the participatory research observations of the researcher as a practising project management professional The research focus was on the impact humans make in the activities of project management within a socially constructed world The research considered competences and behaviours of skills in working with people for project managers and therefore had to deal with the meaning that people put on their observations As a consequence their descriptions have been collected analysed and interpreted by applying a constructivist interpretivist approach within a phenomenological research paradigm The results from this study are of interest to both academics and the community of practice in project management The new competence and behaviour model of skills in working with people for project managers can be incorporated in future editions of bodies of knowledge such as those promoted by the PMI APM or IPMA and other people competence models in the area of general management

Adult Language Learning: Insights, Instructions And Implications Shamim Ali, 2011 Master s Thesis from the year 2006 in the subject Pedagogy Adult Education National University of Modern Languages Islamabad English Department course Research Project language English abstract The present study aims to investigate that age is not a detriment to language learning As young students are biologically disposed

to better second language learning as well as given certain benefits such as lower self monitor and affective filter but at the same time adults are also not at a lower vantage point in L2 learning process In the language learning program adult learners bring with them certain advantages Adults are better at understanding grammatical rules since they are aware of the rules and structures in their own language Especially in the areas of vocabulary and language structure adults are actually better language learners than children Adult learners have more highly developed cognitive systems are able to make higher order associations and generalizations and can integrate new language input with their already substantial learning experience They also rely on long term memory rather than the short term memory function used by children and younger learners for rote learning Adults have already developed learning strategies that have served them well in other contexts They can use these strategies to their advantage in language learning This research will suggest ways of dealing better with adult learners in their academic performance in the language class The researchers aim will be to investigate that they have potentials to become accomplished language learners with the advantage of more advanced cognitive development in the first language and they integrate new language input with their already substantial learning experience To prove her point of view the researcher will involve 10 teachers and 30 students of Diploma Certificate and Foundation level at the Department of English functional Courses at National U

The Economic & Profitability Impact of Mergers & Acquisitions among Banks in Lebanon Rami Saleh,2013-05-08 Doctoral Thesis Dissertation from the year 2009 in the subject Business economics Banking Stock Exchanges Insurance Accounting grade A language English abstract A study of the impact of mergers and acquisitions on the economic profitability among Banks in Lebanon Overcoming Project Management Problems Aamir Dawawala,2009 Research Paper postgraduate from the year 2009 in the subject Business economics Business Management Corporate Governance grade 68 100 language English abstract Project Management in software development has become extremely complex due to the rapid business changes and technology updates Triggered by multiple project failures this report describes adjustment for the existing project management processes followed by FTME to overcome contemporary challenges FTME is an IT vendor based in Dubai providing IT solutions to multiple customers in the region The problem identified is the predefined uncalculated constraints customers impose on vendors as the condition for the project to be awarded The research drills down in Agile standard process and PMI methodology to recommend appropriate changes in the existing internal processes that will assist in overcoming the constraints It has analysis of multiple IT vendor experts on the same subject and interview feedback as qualitative analysis to further support the findings The recommendations include redefining project success criteria to properly asses project failure attributes appropriate project selection and existing process enhancement using Agile process as a base **Optimum Capital Structure** Lutfa Ferdous,2019-05-23 Thesis M A from the year 2009 in the subject Business economics Economic Policy grade M B A University of Dhaka course Master of Finance language English abstract Capital structure is one of the most

converse and vital issues both in finance literature and practical research This research deals with the theoretical and empirical aspects of capital structure decision It is observed that the determination of debt ratio is subtle and sophisticated to determine and its estimation is still a matter of debate and yet there is no entirely satisfactory theoretical model for forecasting the optimal debt ratio in the firm s capital structure There is little consensus on how firms choose their capital structure and how the firm specific factors influence the shape of the capital structure This research develops a link between theory and practice of capital structure This study has supported a set of sample firms to show the impact of six factors determinants on the financial leverage and how they comply with the findings derived by different previous theories regarding these factors Least Square method has been used to assess the influence of defined explanatory variables on the capital structure by using the dataset of Bangladeshi manufacturing firms for the period 2000 to 2004 Out of Six examined explanatory variables agency equity agency debt Bankruptcy profitability are statistically significant determinants of financial leverage Otherwise growth rate and operating leverage are found to be insignificant Agency equity agency debt bankruptcy operating leverage profitability growth rate all these are showing a negative relation with the dependent variable Also this paper suggests that the institutional context and macroeconomic events play an essential role in the capital structure decisions of Bangladeshi companies It would seem appropriate that further research should focus on the role played by the institutional framework such as the impact of taxation the practice of good corporate governance legal and regulatory structure

The Role of Faith Based Therapy in Treating Depression in African Americans Jacquelyn Claude,2019-04-25 Master s Thesis from the year 2011 in the subject Psychology Consulting and Therapy grade A Walden University Public Health language English abstract The purpose of this critical literature review study is to review the existing research related to faith based counseling and its specific use for treating depression symptoms among African American adults Forty seven peer reviewed articles from the professional literature were selected for review based on relevance to African Americans and faith based organizations Results of the review indicated the need to critically evaluate efficacy of faith based programs based on scientifically determined outcomes The implications for positive social change include increased access to affordable healthcare in a trusting environment decreased prevalence rates for depression in African Americans and reduction in disparities in mental healthcare delivery Current research has indicated that there are disparities in mental healthcare treatment that are affecting African Americans The literature has not strongly supported the use of spiritual leaders as counselors primarily because of a lack of certification in mental health counseling among clergy However the literature has shown that religious faith can have a positive effect on quality of life

The Specification of Street Lighting Needs. Final Report V. Gallagher,1975 **Potential reduction of corporate travel expenditures** Benjamin Heselhaus,2010-03-29 Bachelor Thesis from the year 2009 in the subject Tourism Miscellaneous grade 2 0 International University of Applied Sciences language English abstract This bachelor thesis is concerned with the cost reduction potential

of travel management tools with regard to business travel expenditures in micro small and medium sized enterprises For this purpose primary research in the form of a questionnaire was conducted The results which are presented at the end of the thesis reveal that travel management tools are on the spot for micro small and medium sized enterprises but by far not as much that one could say the market is saturated since 29 percent of the companies are currently applying travel management tools but more than half of them have not yet thought about the matter The findings also show that corporate credit cards and online booking engines are by far the most popular tools and that travel policies and online booking engines are the most efficient tools for micro small and medium sized enterprises with respect to their corresponding cost saving potential
