for Best Book in the Maritime Media Awards 2021 *The Routledge Companion to Marine and Maritime Worlds 1400 1800*
explores early modern maritime history culture and the current state of the research and approaches taken by experts in the
field Ranging from cartography to poetry and decorative design to naval warfare the book shows how once traditional and
often Euro chauvinistic depictions of oceanic mastery during the early modern period have been replaced by newer global
ideas This comprehensive volume challenges underlying assumptions by balancing its assessment of the consequences and
accomplishments of European navigators in the era of Columbus da Gama and Magellan with an awareness of the
sophistication and maritime expertise in Asia the Arab world and the Americas By imparting riveting new stories and global
perceptions of maritime history and culture the contributors provide readers with fresh insights concerning early modern
entanglements between humans and the vast unpredictable ocean With maritime studies growing and the ocean s health in
decline this volume is essential reading for academics and students interested in the historicization of the ocean and the
ways early modern cultures both conceptualized and utilized seas *PASCAL.* ,1994 **The Billboard** ,1949
