When I started thinking about building a Faith based curriculum for the early childhood classroom my goal was to create a curriculum that would catch the interest of children 0 Kindergarten See I have worked in the early childhood classroom for almost two decades and while the goal is at the heart of the curriculum I have used the interest it has sparked in our young ones is mild and dulled down at best How can we best instill an excitement to learn in our young ones By making the material and manipulatives hands on and exciting I don t mean by reading a story and pulling out paper puppets on craft sticks although this may be what some children like and want to explore What I mean is presenting values and morals in an explorative manner in conjunction with developmentally appropriate learning standards that help engage your students in learning experiences while getting them excited Including stories and sensory materials story buckets role playing with dress up materials including a variety of mixed media to spark your student s interests is absolutely necessary Create an environment that appeals to learners of various ages backgrounds and learning styles Make your lesson times fun and

The BIG Book of Open-Ended Questions Angela Russ-Ayon, 2023-10-27 The BIG Book is filled with lists lists and more lists of subject specific open ended questions to support quality parent child or teacher child interactions at home and in typical early childhood settings Think of open ended questions as exploratory prompts learning opportunities thought provokers and conversation starters This type of inquiry requires a response with more than one word answers which typically close the door to any discussion Learn how to transform What color is this Blue into a conversation that matters Included are essential guidelines about developing and asking open ended questions skill building tips over 50 lined journal pages and a multitude of prompts on over 70 topics such as colors numbers geometric shapes boxes patterns writing force and motion scale and structure ramps arts and crafts bubbles pretend play and many more Open ended questions allow children to demonstrate their understanding of various topics using a higher level of communication and reasoning They are guided to think on their own and solve their own problems If children are asked the right question at the right time they build upon what they already know by making connections and taking actions that lead to better outcomes Research shows that helping children process information in their early stages is an effective way to maximize their physical emotional intellectual and behavioral development in the long run With practice asking open ended questions is a skill anyone can develop and use effectively every day **WARNING** This book does not contain answers to the questions The answers are somewhere in the children's minds and each one will be unique

Developing the Whole Child Mary Catherine Daly, 2004 The critical importance of the early years is now recognized and it is widely acknowledged that early learning and experience remain crucial to all later development A limited amount of publications are beginning to address the emotional and social domain However there are few if any publications which address the important areas of moral and spiritual growth This book addresses the emotional social moral and spiritual progress of the young child One of the vital aspects of this book is its proposal to optimize the progress of these areas within the context of the whole child Its use of Maslow's Hierarchy of Needs as its structural base to outline the needs of children provides a very useful framework for the reader to fully comprehend just what is involved Though written by an Irish author the book tackles developmental areas and indeed philosophical questions which are important all over the world The book shows that at present we are not doing the best for our children and the negative repercussions of this are being felt in homes schools communities and in societies worldwide be provided for children in those vital early years so that children have happy and fulfilling experiences The book puts the onus on the reader to start making changes immediately If we ignore this book's contents we do so at our peril Thus this book makes a very valuable contribution to scholarship and one that can not be ignored
