exemption or if you're already Part 107 333 exempt or blanket COA this logbook was made for you Logging your flights is an essential part of being a responsible drone pilot If you're considering getting a professional use certification or insurance logged time establishes eligibility for certificates and ratings If this is just for personal use choose what you want to log and keep records to prove your safety history in case of an incident Detailed logging is a great way to protect yourself and your equipment Use the checklist to make sure you never skip an important step that could cause damage to your equipment or worse cause damage to you other people or other people's property Impress future clients by showing them you have the experience required to do the job Fill out as much or as little as you need for your use Everything you need all in one Logbook includes Flight Safety Checklists Flight Logs Repair Logs Maintenance Logs Never forget to check your safety checklists again Just ask other UAS pilots that have been doing this for a while and they will tell you that most of their costly mistakes could have been avoided by following a pre flight checklist Why this logbook Easy to use while meeting the new FAA regulations regarding commercial UAS pilots 107 333 COA 5 5x8 5 format not the big and bulky US letter size that many logbooks come in today For professional commercial pilots For hobbyist pilots For training pilots All in one logbook contains all you will need to log Attractive and easy to use Impress potential clients by showing them your thorough logs and past jobs Meets FAA guidelines for reporting Use it to document your experience for insurance premium quotes let them know you have the skills knowledge to keep it safe No batteries required No expensive monthly costs Safety Checklists includes seven safety checklists Prep Before you leave Pre flight Controller Pre flight Aircraft Pre flight System Pre flight Camera Take Off Post flight Landing lists All in one design Order today and log it all with the Ultimate UAS Drone Pilot Logbook **Top Ten Check Ride Tips** Kenny Keller, Dan Christman, 2018-07-26 From 2018 Flight Instructor Of The Year Dan Taz Christman and The Creator of Helicopter Online Ground School Kenny Keller Top Ten Check Ride Tips Dedicated to all those that suffer from the hype created by others about the dreaded Helicopter Checkride If you apply yourself remember that we learn through repetition go over the content repeatedly Use our checkride tips to keep yourself calm you will do just fine In this short read we cover our top ten checkride tips These tips are very basic but that's the key People screw up on checkrides because of very basic things As we get into our tips for the checkride we want to add our normal disclaimer Remember that it is up to you to know the procedures for your aircraft and your environment We're going to provide some tips some things that I've seen in 20 years of instructing that are very basic These may be basic but they are things that I don't want you to overlook It doesn't matter whether it is taking you three months six months two years four years or more The time varies for anybody going for a checkride You are preparing the whole time you are flying Your instructor is doing his job working with you You're working through the PTS and you're doing what you are supposed to be doing So often it is the last minute issues that bite people in the rear When I say to start three weeks in advance I mean to start getting the materials ready three weeks in advance of the day of the checkride I am always amazed that students will show up to a checkride without

CURRENT Aeronautical Charts FAR AIM PTS or Chart Supplements formally A FD There is nothing worse than on the night before the checkride thinking I don t have a chart I don t have an E6B I don t have this I don t have that It is the most horrible feeling in the world for you and a horrible feeling for your instructor because you both look unprepared showing up at the checkride trying to sneak through saying Well I couldn t get this in time or I forgot that It just doesn t look good If it is required you will not be able to take the test You want to show up at the checkride prepared I just picked three weeks as a general rule I used to say one or two weeks but I love the number three You should have everything that you need for the day of the checkride three weeks in advance You should have all the tools and things that we talk about three weeks in advance of that checkride Everything you need is listed in the PTS page 1 xi under Applicant s Practical Test Checklist We will provide a copy of the checklist in the Appendix Much of these items are now available digitally and can be updated within a few minutes The FAA has now approved the use of these digital products for checkrides but I would check with your DPE as to what he expects There are a few old hats out there that might still want you to demonstrate on paper as a backup A note on the use of digital products Tablets have an uncanny knack for over heating or running out of battery right at the most inopportune time Have a plan ready should this happen I had a student who was using his iPad for his instrument check Halfway through the first approach it over heated He had to land and print out the subsequent approach plates Lucky for him his examiner was being generous That might not always be the case
