**Composition** Arthur Wesley Dow,2007-08-31 At the turn of the twentieth century Arthur Wesley Dow literally wrote the book on composition and this is it Dow s Composition exercised an enormous influence on emerging modern artists of a century ago A thought provoking examination of the nature of visual representation it remains ever relevant to all the visual arts A well known painter and printmaker Dow taught for many years at Columbia University and acted as a mentor to countless young artists including Georgia O Keeffe His text presented in a workbook format offers teachers and students a systematic approach to composition It explores the creation of freely constructed images based on harmonic relations between lines colors and dark and light patterns The author draws upon the traditions of Japanese art to discuss a theory of flat formal equilibrium as an essential component of pictorial creation Practical and well illustrated this classic guide offers valuable insights into modern design

**Composition** Arthur Wesley Dow,2016-08-06 In writing this book my main purpose is to set forth a way of thinking about art The most that such a book can do is to direct the thoughts awaken a sense of power and point to ways of controlling it The principles of art teaching here outlined might be illustrated in other ways and with better examples I hope the reader will see how each chapter can be developed into many sets of lessons The progressions can be varied materials changed lessons amplified and different designs chosen providing there is no sacrifice of essentials The book is based upon my experience in painting and teaching for more than twenty years The first edition of Composition was published in 1899 In this revision I have made many additions and used new illustrations without departing from theory or principles Composition was chosen as a title because that word expresses the idea upon which the method here presented is founded the putting together of lines masses and colors to make a harmony Design understood in its broad sense is a better word but popular usage has restricted it to decoration

*Design Education* Robin Vande Zande,2016-12-07 Design Education Creating Thinkers to Improve the World is a curricular resource that offers theoretical concepts and practical advice for teaching lessons in design to PreK 12 grade students The book is for art educators at the preK 12 level in schools museums and enrichment programs and university professors in teacher preparation programs Design education is about problem solving learning through objects of our daily lives and the role design plays in social responsibility and the creative economy Designers utilize research methods technology sketching and the construction of prototypes The basis of these techniques systems and tools may be taught to Prek 12 students Students need lifelong skills that build their creativity and problem solving capabilities to better understand the world and themselves and use visual communication to advance their abilities to express ideas Design is a study about life and can touch on all school subjects making it a valuable interdisciplinary study Students are able to directly apply thinking strategies and learning about facts figures and concepts at the same time they are crafting meaningful ideas about the importance influence and social implications of everyday items and the potential to improve the world

*Finding Your Style In Pastel* Jean Hirons,2012-10-25 As artists we have choices There are very few rules that apply across the board We can create highly realistic paintings or perhaps more expressive paintings or paintings that have very little basis in reality including those that are totally non representational We can record color as we see it or as we d like it to be As pastel artists we have even more choices We can use a wide variety of pastels strokes surfaces and techniques to create many different looks The choices we make form the framework of our individual style our signature as artists Any subscriber to The Pastel Journal realizes how varied the medium of pastel can be For the experienced artist these articles are stimulating offering possible ways to experiment with alternative approaches For the beginner the panoply of choices can be overwhelming Painting is primarily an intuitive process But intuition is gained through study and experience Part of my impetus in writing this book has been to create a more structured approach to help those fairly new to the medium understand its many possibilities The book is aimed at all levels of pastel artists Beginners will find a wealth of helpful information and intermediate artists will gain insight into how to take their work to another level and develop a style Many advanced artists teach pastel the organization of ideas and the exercises included should be of assistance I offer a variety of suggested approaches and sometimes make up terminology to describe my experiences with the medium The instructions in the book are based on my preferences and the guidance that I offer my students The diversity of styles and techniques evident in the paintings of contributing artists should make it clear however that there are many ways to successfully work in pastel Having acknowledged the many possibilities I want to note a few musts Representational

paintings must be well drawn Poor drawing skills cannot be overcome with lovely color or great technique Likewise paintings must have strong compositions regardless of whether they are realistic abstracted or non representational Values must be properly interpreted to produce strong compositions and to use pastel to its full effect And finally pastel paintings must sing Whether the applications are light and airy or rich and painterly it should be clear that the artist is in control of the medium and is using it to produce his or her desired look For years I have resisted suggestions that I write a book As a landscape painter I knew that there were more authoritative books already available And the growing popularity of pastel has led to so many resources including online blogs a biennial convention and the wonderful Pastel Journal mentioned above What could I add to this My personal training in pastel has been from weeklong landscape workshops with some of the leading pastel painters in the country As a teacher in a community college I am not teaching a particular style nor focusing on specific subject matter Some of my students work with the landscape but others do portraits or figurative work while others prefer still life or work abstractly In dealing with this mixture I've realized that there are different ways to approach one's use of color and this formed my first idea for creating a book Furthermore as a teacher I've spent time experimenting with different surfaces pastel brands and techniques in order to make suggestions to students to help them find the look they want to achieve I do not teach students to paint the way I do but instead try to share my experience and help them develop their own individual style
