Classic Chemistry Experiments, 2000 Chemistry is an experimental subject and what can be more stimulating than carrying out a laboratory experiment where the results are memorable either by their visual nature or by their tying together of theory This collection of 100 chemistry experiments has been developed with the help and support of teachers throughout the UK Each student worksheet is accompanied by a teachers notes sheet which gives details for teachers and technicians on apparatus and chemicals timing context teaching tips background theory and answers to any questions on the student worksheets Classic Chemistry Experiments is designed as a teaching aid to help communicate the excitement and wonder of chemistry to students and is ideal for both experienced chemistry teachers and to scientists from other disciplines who are teaching chemistry

Classic Chemistry Demonstrations Ted Lister, Catherine O'Driscoll, Neville Reed, 1995 Classic Chemistry Demonstrations is an essential much used resource book for all chemistry teachers It is a collection of chemistry experiments many well known others less so for demonstration in front of a class of students from school to undergraduate age Chemical demonstrations fulfil a number of important functions in the teaching process where practical class work is not possible Demonstrations are often spectacular and therefore stimulating and motivating they allow the students to see an experiment which they otherwise would not be able to share and they allow the students to see a skilled practitioner at work Classic Chemistry Demonstrations has been written by a teacher with several years experience It includes many well known experiments because these will be useful to new chemistry teachers or to scientists from other disciplines who are teaching some chemistry They have all been trialled in schools and colleges and the vast majority of the experiments can be carried out at normal room temperature and with easily accessible equipment The book will prove its worth again and again as a regular source of reference for planning lessons
