Certification with some project experience will certainly open a lot of doors for you. The consultants who will benefit the most from a certification are the ones with typically with 2-5 years project experience. This is not to say that consultants with higher experience will not benefit but at that level having a certification matters much less. So if you have little CRM experience you should get yourself certified, get some project experience and then the whole of the SAP World opens for you to explore. Helping you with the first step on your ladder to success is the book *SAP Certified Application Professional Service with SAP CRM 7.0*. Some unique features of this book: There is NO other material in the market for the CRM 7.0 EhP1 Service Professional exam. The authors have themselves cleared the exam. All questions are multiple choice format similar to the questions you will get in the actual exam. *Implementing SAP CRM* Vivek Kale, 2014-12-03. In today's competitive business environment, most companies realize that the better they can manage their customer relationships, the more successful they will become. Customer Relationship Management (CRM) software systems are key tools for companies to manage the customer-facing processes of their businesses. However, many companies have resisted.

Mastering SAP ABAP Paweł Grześkowiak, Wojciech Ciesielski, Wojciech Ćwik, 2019-05-31. Take your SAP ABAP skills to the next level by mastering ABAP programming techniques with the help of real-world examples. Key Features: Become adept at building interfaces and explore ABAP tools and techniques. Discover the modern functionalities available in the latest version of ABAP. Learn the process of creating stunning HTML5 applications using SAPUI5. Book Description: Advanced Business Application Programming (ABAP) is an established and complex programming language in the IT industry. This book is designed to help you use the latest ABAP techniques and apply legacy constructions using practical examples. You'll start with a quick refresher on language and database concepts followed by agile techniques for adding custom code to a modern ABAP system. After this, you will get up to speed with the complete ABAP toolset for importing data to and from different environments. Next, you'll learn how to print forms and work with the different ABAP tools for Extensible Markup Language (XML) manipulation. While covering further chapters, you'll gain insights into building stunning UI5 interfaces in addition to learning how to develop simple apps using the Business Object Processing Framework (BOPF). You will also pick up the technique of handling exceptions and performing testing in ABAP. In the concluding chapters, you can look forward to grasping various techniques for optimizing the performance of programs using a variety of performance analysis tools. By the end of this book, you will have the expertise you need to confidently build maintainable programs in Systems Applications and Products (SAP). What you will learn: Create stable and error-free ABAP programs. Leverage new ABAP concepts including object-oriented programming (OOP) and Model View Controller (MVC). Learn to add custom code to your existing SAP program. Speed up your ABAP programs by spotting bottlenecks. Understand techniques such as performance tuning and optimization. Develop modern and beautiful user interfaces (UIs) in an ABAP environment. Build multiple classes with any nesting level. Who this book is for: This book is for developers who want to learn and use ABAP skills to become an industry expert. Familiarity with object-oriented

programming concepts is expected **Sap Certified Application Professional** Antony T,N.
