**Knowledge Management in the Sharing Economy** Elena-Mădălina Vătămănescu, Florina Magdalena Pînzaru, 2017-11-14 This volume explores the challenge of engaging knowledge management in a sharing economy In a hyper competitive business environment everything tends to be

digital virtual and highly networked which raises the issue of how knowledge management can support the decision whether or not to share strategic resources or capabilities The book answers questions such as to what extent does the sharing economy preserve or compromise the competitive advantage of organizations And what are the knowledge management strategies for competitive yet cautious sharing dynamics

**Artificiality and Sustainability in Entrepreneurship** Richard Adams, Dietmar Grichnik, Asta Pundziene, Christine Volkmann, 2022-10-29 This open access edited volume explores the past present and future of artificiality and sustainability in entrepreneurship the unforeseen consequences and ways to advance to a sustainable future In particular it connects artificiality sustainability and entrepreneurship intertwining artificial with the specific phenomenon of those novel digital technologies that provoke continuous and significant change in our lives and business Unlike digital entrepreneurship research which focuses on digital technology development and management this book covers processes and mechanisms of sustainable adaptability of entrepreneurs the business logic of start ups and the collaborative behaviours under the mass digital transformation including the prevalence of artificial intelligence Some of the questions that this book answers are as follows How has entrepreneurship reacted to such challenges previously What lessons have been learned and need to be carried forward How can entrepreneurship and the artefacts of entrepreneurship respond to current challenges What should be the mindset of the entrepreneur to assure sustainable adaptation How to embrace and embed the new business logic

**Technological, Managerial and Organizational Core Competencies: Dynamic Innovation and Sustainable Development** Nobre, Farley Simon, 2011-09-30 Innovation involves a set of processes which support the production and transformation of knowledge into new processes technologies and products goods and services and provide an organization with particular strengths and value relative to other firms In such a view innovation is a key source of customer benefits and sustainable competitive advantage Technological Managerial and Organizational Core Competencies Dynamic Innovation and Sustainable Development investigates the impact of knowledge management information systems finance organizational networks internationalization strategic management marketing entrepreneurship and sustainability on an organization that pursues dynamic innovation and sustainable advantage This book provides research and practice for graduate and undergraduate programs as well as business firms with different technological managerial and organizational perspectives Further Description from the Editors This book represents the culmination of an international project to compile inter disciplinary research that most contributes to innovation More specifically this book is about innovation in firms industries nations and society It speaks to professionals and researchers who want to improve their understanding of dynamic innovation and sustainable development The Editors goal is to foster cross pollination among researchers To this aim the Editors have selected and assembled 35 chapters that illustrate multidisciplinary theoretical perspectives and empiric results on innovation and the roles of Sustainability Organizational Networks Entrepreneurship Knowledge Management R D T Research Development and Technology Management Marketing

Finance Internationalization and Information Systems in the organization that pursues dynamic innovation and sustainable development Innovation involves processes organizational elements or resources and Organizational Abilities OA that support the production and transformation of knowledge into new knowledge processes structures technologies and products goods and services At the firm and industry levels of analysis innovation can provide organizations with strengths relative to other firms clusters and nations and it is a key source of customer benefits and sustainable development At the collective and societal levels of analysis innovation can provide humanity with economic social and environmental wealth through sustainable development The uniqueness of this book lies in the participants efforts to identify Organizations Creative Areas OCA that can provide core competencies for the organization in pursuit of dynamic innovation and sustainable development In this perspective innovation is a dynamic system and it is contingent upon a set of core competencies that couple to each other Therefore changing of even one competence can affect the organization s ability to innovate The book avoids the term competitive advantage and adopts a more fruitful perspective of sustainable development the process of achieving human development in an inclusive connected equitable prudent and secure manner An inclusive perspective sees traditional competitive advantage as occupying one extreme whereas truly sustainable development occupies the opposite extreme Sustainable development must benefit not only the organization and its customers but also the whole society and the future of humanity through sustainability Most chapters of this book fall between these extremes

Global Careers Michael Dickmann, Yehuda Baruch, 2011-02-09 With interest in the global environment and the management of talent increasing understanding the issue of global careers is crucial for students and managers alike This exciting book captures broad research extending to a large set of diverse motivations experiences and outcomes of international work in global for profit and not for profit organizations and delivers nuanced insights into the management of international employees for firms and governmental non governmental organizations This text covers global career issues in depth working at the intersection of career and international human resource management and using a number of perspectives such as organizational or individual ones Chapters include theories frameworks and concepts supporting research data where relevant managerial implications summaries learning points figures and tables Illustrated with up to the minute case studies from companies such as Pepsi Imperial Tobacco Cadbury Schweppes PricewaterhouseCoopers Philips HSBC Misys Philip Morris International and Masterfoods Global Careers is essential reading for all those studying or concerned with career management human resource management and international business

**Dynamic Perspectives on Creativity** Ronald A. Beghetto, Giovanni Emanuele Corazza, 2019-01-17 This edited volume provides a venue for scholars whose work challenges the typical static conceptions and methods of studying creativity More specifically the book will serve as an effort to introduce more dynamic definitions conceptions and approaches for studying creativity in the context of educational practice By doing so it feeds the strong contemporary need for more dynamic conceptions of creativity in educational settings This is particularly important

given the fast evolution of modern society and the widespread consensus that efforts to develop creative potential should be democratized extending well beyond the boundaries of the gifted subset and the walls of the classroom This work recognizes that more dynamic perspectives on creativity are necessary for understanding its complexity value and meaning in educational contexts [ICCS21](#) Antonio J.M. Ferreira, Francesco Tornabene, Nicholas Fantuzzi, Erasmo Viola, 2018-07-23 It is well known that the topic of composite materials affects many engineering fields such as civil mechanical aerospace automotive and chemical In the last decades in fact a huge number of scientific papers concerning these peculiar constituents has been published Analogously the industrial progress has been extremely noticeable The study of composite materials in general is a challenging activity since the advancements both in the academia and in the industry provide continually new sparks to develop innovative ideas and applications The communication the sharing and the exchange of views can surely help the works of many researchers This aspect represents the main purpose of this Conference which aims to collect high level contributions on the development and the application of composite materials The establishment of this 21st edition of International Conference on Composite Structures has appeared appropriate to continue what has been begun during the previous editions ICCS wants to be an occasion for many researchers from each part of the globe to meet and discuss about the recent advancements regarding the use of composite structures sandwich panels nanotechnology bio composites delamination and fracture experimental methods manufacturing and other countless topics that have filled many sessions during this conference As a proof of this event which has taken place in Bologna Italy selected plenary and key note lectures have been collected in the present book **Journal of Scientific & Industrial Research** ,1998 [How Does Absorptive Capacity Influence the Origin and Evolution of Dynamic Capabilities](#) ,2002 In this thesis I deploy a qualitative case study method to examine the influence of a firm s absorptive capacity of external knowledge on the origin and evolution of dynamic capabilities First I make an attempt to reduce some of the conceptual and definitional confusion in the dynamic capabilities literature by developing and then validating a conceptual framework for their study in the field Second to examine the underlying mechanisms leading to the origination and evolution of dynamic capabilities I call on recent literature on the absorptive capacity construct that calls for more understanding of how absorptive capacity can produce and develop dynamic capabilities I do so in the context of stated weaknesses in the absorptive capacity literature namely that there is an R D functional bias a scientific and technical knowledge content bias linked to R D at the expense of process knowledge and a methodological preference for quantitative descriptive studies Third with absorptive capacity as my lens specifically potential absorptive capacity which is only concerned with the acquiring and assimilation not the application of new external knowledge by a firm after Zahra and George 2002 I make an attempt to reveal the constituent processes of dynamic capabilities Fourth I discuss and reflect whether the development of absorptive capacity can be a dynamic capability in itself and what effects if any absorptive capacity has on existing or new dynamic capabilities and the firm s resource base

Finally by focusing on dynamic capabilities as processes or the how of change and absorptive capacity of knowledge of customer needs as the content or the what of change that is flowing through those processes I make a tentative contribution to calls for the integration of the divergent research streams of strategy as process and strategy as content Helfat with Maritan 2007 *Network Knowledge in International Business* European International Business Academy. Conference,2002 This book focuses on current cutting edge research concerning the increasing strategic importance of subsidiary networks to the multinational firm It combines contributions from three major related areas of inquiry the changing theoretical conception of networks and the structure of the multinational firm the importance of spillovers and agglomeration economies related to multinational investments and the management of the flow of information and knowledge from headquarters to subsidiaries and vice versa The book approaches the network structure of the firm from the different perspectives of the expert international contributors while also combining theoretical perspectives with recent empirical evidence Network Knowledge in International Business offers students in international business and strategy a cross section of relevant research and current empirical evidence relating to knowledge management and the management of the modern multinational **Aerospace Engineering** ,1998 [Financial Management](#) ,2005 **British National Bibliography for Report Literature** ,2002 **8th International Conference on Mechanical and Physical Behaviour of Materials Under Dynamic Loading** J. Cirne, Richard Dormeal,2006 **The Architects' Journal** ,2001 **New Scientist** ,2008
