*Structure, Culture and Agency* Tom Brock, Mark Carrigan, Graham Scambler, 2016-11-10 Professor Margaret Archer is a leading critical realist and major contemporary social theorist. This edited collection seeks to celebrate the scope and accomplishments of her work, distilling her theoretical and empirical contributions into four sections which capture the essence and trajectory of her research over almost four decades. Long fascinated with the problem of structure and agency, Archer's work has constituted a decade-long engagement with this perennial issue of social thought. However, in spite of the deep interconnections that unify her body of work, it is rarely treated as a coherent whole. This is doubtless in part due to the unforgiving rigour of her arguments and prose, but also a byproduct of sociology's ongoing compartmentalisation. This edited collection seeks to address this relative neglect by collating a selection of papers spanning Archer's career, which collectively elucidate both the development of her thought and the value that can be found in it as a systematic whole. This book illustrates the empirical origins of her social ontology in her early work on the sociology of education, as well as foregrounding the diverse range of influences that have conditioned her intellectual trajectory: the systems theory of Walter Buckley, the neo-Weberian analysis of Lockwood, the critical realist philosophy of Roy Bhaskar, and more recently her engagement with American pragmatism and the Italian school of relational sociology. What emerges is a series of important contributions to our understanding of the relationship between structure, culture, and agency. Acting to introduce and guide readers through these contributions, this book carries the potential to inform exciting and innovative sociological research.

**A Touch of Flame** Jo Goodman, 2018-06-05 USA Today bestselling author Jo Goodman returns to the gunslinging outlands of *A Touch of Frost* with a sizzling new romance where the new town doctor learns there's nothing she likes better than a run-in with the law. Dr E. Ridley Woodhouse is like no physician Ben Madison has ever met: she's a woman. As the newly elected sheriff of Frost Falls, Colorado, Ben is tasked with welcoming Ridley to the community. But while Ben might be tempted by the new doc's charms, getting the town to accept a big city female doctor is no easy feat. To earn their trust, she'll have to prove herself, and Ben determines to help her, even if she's the most stubborn woman he's ever met. When the husband of one of Ridley's patients threatens her, forbidding Ridley from treating his wife or children, all of Ben's protective instincts kick in. Ridley has come to rely on Ben's steady presence, and the delicious tension that simmers just below the surface of their easy friendship. But as much as she trusts that his warnings to steer clear of Jeremiah Salt are sincere, she's never been one to back down from a challenge, and she refuses to abandon her patient. But sticking to your guns can earn you trouble in the rough terrain of the Wild West, and danger threatens Ridley from unexpected places, forcing Ben to confront his deepest fear in order to save the woman he loves.
