Fw 190 D 9 3rd Wing:

Day Fighter Aces of the Luftwaffe Jeremy Dixon, 2023-12-30 The second of two comprehensive directories of all the Luftwaffe's single seater fighter pilots who were awarded the Knight's Cross during the Second World War. The German fighter pilots of the Second World War are among the undoubted heroes of the conflict; their reputation for flying skill, single-minded determination, and solitary courage hasn't diminished or been clouded by controversy over the years. Their daring and commitment often displayed when, towards the end of the war, they were fighting against the odds matches that of any of the other air forces they fought against. This detailed, highly illustrated reference book covers the exploits of the most famous and successful individuals among them, showing just how effective and undaunted they were. All the Luftwaffe day fighter pilots who flew single seater aircraft and won the Knight's Cross during the war are featured. The entries give information about their early lives and pre-war careers and record how many aircraft they shot down, the type of aircraft involved, and where and when the combat took place. Included are accounts of particular actions which led to the award of the Knight's Cross, and the fate of these remarkable pilots later in the war and in the post-war world is described too. Jeremy Dixon's book will be fascinating reading and reference for anyone who is interested in the aviation history of the Second World War.

The Focke-Wulf 190 Heinz J. Nowarra, 1965 Beskrivelse af Luftwaffe jagerflyet Fw 190 kendt fra 2 verdenskrig

The Polish Air Force at War: 1943-1945 Jerzy B. Cynk, 1998 After being overrun during the early Blitzkrieg in September 1939 and later in France in 1940, the Polish Air Force, flying British and American-made fighters and bombers out of England in their own units, made a tremendous contribution to the Allied air victory. The PAF's gallant, lonely fight in September 1939 inflicted the first losses on the mighty Luftwaffe and allowed Britain a nine-month grace to strengthen her air defenses. Their part in the Battle of Britain became legend, and its contribution to the early RAF bomber offensive on Germany was equally great. PAF exploits over Dieppe, North Africa, and during the invasion of Europe received special commendations from the RAF. This two-volume set is the result of years of painstaking research of the official RAF and PAF documentation and is fully supported by the Polish Air Force Association. After a brief introduction to the PAF's formative years and to the political background to the war itself, the factors shaping PAF operations in Great Britain and to the abandonment by Britain of her most faithful ally are discussed. The book also provides a wealth of information about all PAF squadrons, their participation in operations, the great variety of aircraft flown by the PAF: Hurricanes, Spitfires, Mustangs, Warhawks, Mosquitoes, Lancasters, Wellingtons, Bostons, Liberators, and many others, their achievements and disappointments, victories and losses. These are supplemented by operational statistics in detailed appendices, lists, charts, maps, and over 700 black and white and color photographs and color profiles. Volume 1 covers the origins of Polish aviation, the air war against the Luftwaffe during the initial Blitzkrieg, the air battles over France, and the formation of the Polish squadrons, the establishment and development of the PAF squadrons in Britain after the battles in France, the Battle of Britain, PAF units
