Localizing Apps Johann Roturier, 2015-05-08 The software industry has undergone rapid development since the beginning of the twenty first century These changes have had a profound impact on translators who due to the evolving nature of digital content are under increasing pressure to adapt their ways of working Localizing Apps looks at these challenges by focusing on the localization of software applications or apps In each of the five core chapters Johann Roturier examines The role of translation and other linguistic activities in adapting software to the needs of different cultures localization The procedures required to prepare source content before it gets localized internationalization The measures taken by software companies to guarantee the quality and success of a localized app With practical tasks suggestions for further reading and concise chapter summaries Localizing Apps takes a comprehensive look at the transformation processes and tools used by the software industry today This text is essential reading for students researchers and translators working in the area of translation and creative digital media

Accessibility for Everybody John Mueller, 2013-11-09 In today's rapidly changing technological world it is increasingly important that web and desktop applications be accessible to everyone including those of us with special needs However the legal requirements for accessibility are often convoluted and difficult to understand making it impossible for most developers to comply with the laws In the first book on the market to address the topic Author John Paul Mueller leads you through the maze of Section 508 the congressional law ensuring that all Americans have access to information technology and offers comprehensive guidance on how to quickly and easily update your applications to conform to Section 508 requirements To begin Mueller outlines the Section 508 requirements that are relevant to web and desktop application developers and explains the laws in language you can understand Using extensive

and varied program examples Mueller continues on to teach you to write web and desktop applications that not only conform to Section 508 standards but look forward to ensure long term universal accessibility for all types of computer users Specific topics include writing accessible web applications and desktop applications using Visual Basic NET and Visual C NET developing special application capabilities using Microsoft and other third party tools to develop accessible features developing accessible scripting solutions and more The book even includes a directory of helpful organizations agencies and resources to help you with any further accessibility concerns you may have
