but surely But what about all the angry old people who can't let go For young Americans a generation from now climate change isn't controversial It's just an overwhelming fact of life And so are the great efforts to contain and mitigate it Entire cities are being moved inland from the rising seas Vast clean energy projects are springing up everywhere Disaster relief the mitigation of floods and superstorms has become a skill for which tens of millions of people are trained every year The effort is global It employs everyone who wants to work Even when national politics oscillates back to right wing leaders the momentum is too great these vast programs cannot be stopped in their tracks But there are still those Americans mostly elderly who cling to their red baseball caps their grievances their huge vehicles their anger To their alternative news sources that reassure them that their resentment is right and pure and that climate change is just a giant scam And they're your grandfather your uncle your great aunt And they're not going anywhere And they're armed to the teeth The Lost Cause asks What do we do about people who cling to the belief that their own children are the enemy When in fact they're often the elders that we love At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied **Quill & Quire**, 2010 **The Bookaholics Guide to Book Blogs** Rebecca Gillieron, Catheryn Kilgarriff, 2007 The first ever guide to the top book blogs including interviews and sample reviews Content Cory Doctorow, 2008 A collection of previously published articles and essays Red Team Blues Cory Doctorow, 2023-04-25 New York Times bestseller Cory Doctorow's Red Team Blues is a grabby next Tuesday thriller about cryptocurrency shenanigans that will awaken you to how the world really works Martin Hench is 67 years old single and successful in a career stretching back to the beginnings of Silicon Valley He lives and roams California in a very comfortable fully furnished touring bus The Unsalted Hash that he bought years ago from a fading rock star He knows his way around good food and fine drink He likes intelligent women and they like him back often enough Martin is a contain your excitement self employed forensic accountant a veteran of the long guerilla war between people who want to hide money and people who want to find it He knows computer hardware and software alike including the ins and outs of high end databases and the kinds of spreadsheets that are designed to conceal rather than reveal He's as comfortable with social media as people a quarter his age and he's a world level expert on the kind of international money laundering and shell company chicanery used by Fortune 500 companies mid divorce billionaires and international drug gangs alike He also knows the Valley like the back of his hand all the secret histories of charismatic company founders and Sand Hill Road VCs Because he was there at all the beginnings He's not famous except to the people who matter He's made some pretty powerful people happy in his time and he's been paid pretty well It's been a good life Now he's been roped into a job that's more dangerous than anything he's ever agreed to before and it will take every ounce of his skill to get out alive At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied Nebula Awards Showcase 2005 Jack Dann, 2005 In an annual tradition the members of the Science Fiction and Fantasy Writers of America present the Nebula Awards to honour the authors of the year's most

the state of the digital world and how it is affecting all of our lives and not for the better The once glorious internet was colonized by platforms that made all but magical promises to their users and at least initially seemed to deliver on them But once users were locked in the platforms turned on them to make their business customers happy Then the platforms turned to abusing their business customers to claw back all the value for themselves In the end the platforms die Doctorow s argument clearly resonated Once named it became obvious that enshittification is everywhere so much so that the American Dialect Society named it its 2023 Word of the Year and was cited as an inspiration for the 2025 season of Black Mirror Here now in Enshittification the book Doctorow moves the conversation beyond the overwhelming sense of our inevitably enshittified fate He shows us the specific decisions that led us here who made them and most important how they can be undone At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied
