Excellence In Public Relations And Communication Management:

Excellence in Public Relations and Communication Management James E. Grunig, 2013-10-18 This book is the initial volume coming out of the excellence project a comprehensive research effort commissioned by the IABC International Association of Business Communicators Research Foundation The purpose of this project was to answer two fundamental questions about public relations What are the characteristics of an excellent communication department How does excellent public relations make an organization more effective and how much is that contribution worth economically The research team began its work with a thorough review of the literature in public relations and related disciplines relevant to these questions What started as a literature review however has ended in a general theory of public relations one that integrates most of the wide range of ideas about and practices of communication management in organizations The Future of Excellence in Public Relations and Communication Management Elizabeth L. Toth, 2009-03-04 The Future of Excellence in Public Relations and Communication Management brings together an outstanding group of public relations scholars and practitioners to consider the indelible theory building in public relations of James E Grunig and Larissa A Grunig who with David M Dozier produced the 1992 IABC Excellence Study a benchmark body of work examining best practices in the public relations field In this assembled collection editor Elizabeth L Toth and the contributors show how and in what ways the theories of the Excellence Study have developed and changed They present research that advances excellence theories adds new dimensions and directions to the excellence theories and shows how the excellence study has moved on to a global stage Toth and her colleagues challenge future researchers to continue the theory building that will lead to understand how strategic public relations management contributes to organizations and society Public relations and communication management scholars in addition to practitioners and graduate students studying these areas will benefit immensely from the work included here **Manager's Guide to Excellence in Public Relations and Communication Management** David M. Dozier, Larissa A. Grunig, James E. of the communication department the shared expectations of top communicators and senior managers about the function and role of communication and the organization's culture the larger context that either nurtures or impedes communication excellence This text also examines communication excellence as demonstrated in specific programs developed for specific publics

Public Relations Research Ansgar Zerfaß, A. A. van Ruler, Krishnamurthy Sriramesh, 2008-05-08
Introduction Sriramesh Van Ruler Zerfaß Krishnamurthy Sriramesh Betteke van Ruler Ansgar Zerfaß One could make a reasonable argument that public relations is an ancient practice going back millennia although it has been popularly perceived as a 20th century phenomenon Scholarship in public relations however is more recent in origin with a history of less than four decades During these formative years the body of knowledge has expanded significantly which is laudable However there is potential for growth and improvement in many areas of the public relations literature Over the decades among other things public relations scholarship has largely remained parochial to specific regions such as the United States the United Kingdom Latin America German speaking Europe etc as evidenced in the bibliographic references of many essays in this volume itself where authors predominantly cite work from their own regions This is often necessitated by linguistic differences with only English serving as the universal language that helps permeate knowledge through most regions Pedagogical and methodological factors also have played a role in the regionalization of the body of knowledge However we believe that knowledge flows most when it is shared across different kinds of barriers Globalization has made it essential for us to recognize this reality more than ever This volume tries to bridge the gap and presents theories and concepts from researchers around the world
