Marketing Case Studies in Emerging Markets Dilip S. Mutum, Soo Yeong Ewe, Ezlika M. Ghazali, Racheal Louis Vincent, 2024-04-01 There is an increasing interest in emerging markets because of the higher economic growth rates compared to developed economies. However, these markets have a diverse consumer base with unique needs and preferences. As a result, companies in these markets face different challenges and opportunities. Unfortunately, there is a lack of marketing cases from these markets. This book presents actual real-world marketing cases in these markets, offering an in-depth look at some of the issues faced by companies in different industries. It is hoped that the cases would serve as valuable reference material for academics, students, professionals in marketing, business strategy, and other related fields, as well as policymakers to better understand the challenges of these markets and develop strategies to succeed in them. Case Studies in Management: The Indian Context Amit Agarwal, Mihir Joshi, Nabila Ansari, Shagun Tyagi, Vivek, 2018-12-21 The goal of this book is to grab readers' attention on how case method help to do problem solving and diagnostic skills for business student individual and society. If students are encouraged to use their own initiative through groundwork assignments and class discussion, they are better placed to transfer decision making and problem solving skills into the workplace. Gradually, the primary objective of this book is to help the reader put theory into practice. This book is segmented in 5 sections covering all important concepts related to management and commerce. Cases are ideally suited to business studies, finance, accounting, marketing, economic bureaucracy in banks, banking, and operation management course, which offer practical computing skills as an integral part of the course syllabus. Managing critical scenarios in business is the real challenge that classrooms cannot go in depth with. However, understanding administrative challenges in a virtual environment gives an edge to the reciprocator in reality. Right from the CEO to the manager, everyone is focused on dealing with situations that involve risks or taking risks to convert them into opportunities. It is therefore necessary to understand how different real-life situations can arise and what possible decision could be to handle them. Sometimes there are no alternatives in front of a manager, so he/she looks toward the team mates and out of the many choices he/she makes one. The one decision that changes the whole direction of the task. Hence, this book as a beginning step to the budding managers or entrepreneurs belonging to business families or seek to move ahead in business or transform presents several cases that provide a wide developmental array to the business education. The content of the book is in eloquent manner and attempt has been made to maintain easy understanding of the caselets. **International Marketing** Carl Arthur Solberg, 2017-12-06 Expanding an organisation internationally presents both opportunities and challenges as marketing departments seek to understand different buying behaviours, power relations, preferences, loyalties, and norms.
