Online Leave Management System

Introduction and objective of the project

1. Project Description

The "Leave management system" software is user-friendly software. The main objective of the system is which shows and helps you to collect most of the information about Leave details of employees.

The project Leave Management System includes employee login, admin login. employee login enables employees to view their attendance details and also their leave status. They can also apply for the leave. admin login enables admin to confirm the leave applied by the employees of their class. They can either accept or reject the leave. admin can also generate various reports on the leave details. Attendance percent of the employee calculated automatically and updated. employees cannot apply for more leave when their attendance percent is below minimum.

The Leave Management System can be entered using a user id and password. It is accessible either by a employee or admin. Only they can add data into the database. The data can be retrieved easily. The interface is very user-friendly. The data are well protected for personal use and makes the data processing very fast. This project has been developed using PHP language as a front end and back end as MySQL.
