Work, Workflow and Information Systems William B. Rouse,Andrew P. Sage,2007 This volume brings together several perspectives on the nature of work processes in enterprises and how information systems can best support these processes The genesis of this idea was the shared interests of the authors in how enterprises improve and change The shared belief is that change of enterprises relates to change of work processes and the success of such changes relates to how work processes are supported by information systems Thus the papers in this volume address both the nature of work and the design of information systems to support work This volume is divided into two main sections work and workflow and information systems There are three papers in each section The disciplines represented across these six papers include management engineering computing and architecture These four disciplines pursue work workflow and information systems from quite different perspectives management to represent business practices and processes engineering to represent the physical flows in the system computing to represent the information flows and architecture to represent human flows within and among physical spaces Enterprises of course include all these types of flows

Restructuring Local Government Finance in Developing Countries Roy W. Bahl,Paul J. Smoke,2003 Examining cutting edge issues of international relevance in the ongoing redesign of the South African local government fiscal system the contributors to this volume analyze the major changes that have taken place since the demise of apartheid The 1996 Constitution and subsequent legislation dramatically redefined the public sector mandating the development of democratic local governments empowered to provide a wide variety of key public services However the definition and implementation of new local functions and the supporting democratic decision making and managerial capabilities are emerging more slowly than expected Some difficult choices and challenges commonly faced by developing countries must be dealt with before the system can evolve to more effectively meet the substantial role envisioned for local governments The contributors outline these choices and challenges consider options for meeting them and review the implications of different decisions Their analyses also highlight the interrelationships among the elements of the local fiscal structure and emphasize the often ignored challenge of how to define an appropriate fiscal decentralization implementation strategy in an environment where local governments are extremely diverse in terms of needs resources and capacities Though the research much of it based on newly collected data is specific to South Africa the approach provides a model for other countries facing similar fiscal decentralization policy challenges Applied public finance and policy academics policymakers in developing countries researchers and program managers in international development organizations and students interested in local government finance in developing countries will find this timely and comprehensive volume a valuable addition to their libraries **AIDS 91 Summary** J.
