The Cultural Landscape James M. Rubenstein, Robert Edward Nunley, 1998-09 The Cultural Landscape Hilary H. Birks, 1988 The Cultural Landscape: Past, Present, and Future considers different aspects of man's intervention with natural vegetation and the landscape resulting from a long equilibrium of coexistence. These landscapes are not stable, and the recent and ever-accelerating changes in technology and life style have increasingly affected many ancient landscapes as old land use practices are abandoned and traditions forgotten. The papers in this book describe and trace the development of cultural landscapes in different climatic and biogeographical regions in Europe. Remnants of traditional land use still remaining are described, particularly from Western Norway where traditions have lingered because the rugged topography of the region is inimicable to high technology. Each chapter is by an expert in the field. The topics cover the documentation of present cultural landscapes, their maintenance and restoration, and the history of the development of cultural landscapes from the Stone Age onwards, linking the intensity of landscape utilization with population dynamics and technological attainments. The disciplines involved include vegetation science, vegetation history, ecology, palaeoecology, archaeology, sociology, geography, and history. **Conquest and Survival in Colonial Guatemala, Fourth Edition** W.
