The Other Black Church Joseph L. Tucker Edmonds, 2020-12-02 *The Other Black Church* Alternative Christian Movements and the Struggle for Black Freedom examines the movements led by Father Divine Charles Mason and Albert Cleage later known as Jaramogi Abebe Agyeman as alternative Christian movements in the middle of the twentieth century that radically re envisioned the limits and possibilities of Black citizenship These movements not only rethink the value and import of Christian texts and reimagined the role of the Black Christian prophetic tradition but they also outlined a new model of protest that challenged the language and logic of Black essentialism economic development and the role of the state By placing these movements in conversation with the long history of Black theology and Black religious studies this book suggests that alternative Christian movements are essential for thinking about African American critiques of and responses to the failures of U S based democracy These prophets of Black theological thought and their attention to the limits of the state and traditional Black religious formations are most fully appreciated when studied in light of their conversations and interactions with other key Black prophetic and theological figures of the mid twentieth century Ultimately *The Other Black Church* will use those conversations and archives from these movements to highlight their protest of the racial state to explore the limits of the Black church and to argue for their continued significance for thinking about the variety and vibrancy of Black protest specifically Black religious protest during the twentieth century

Black Prophetic Patriotism Jonathan Chism, LaMont Johnson, 2025-11-27 This volume critically and constructively examines Jeremiah Wright's life and legacy focusing on his patriotic promotion of inclusion within the church and society This book advances conversation regarding the ongoing necessity of prophetic or social justice preaching and ministry in post civil rights America

Dunkley, Stephanie Shonekan, 2018-11-02 All across the US in the last few years there has been a resurgence of Black protest against structural racism and other forms of racial injustice *Black Resistance in the Americas* draws attention to this renewed energy and how this theme of resistance intersects with other communities of Black people around the world This edited collection examines in depth stories of resistance against slavery narratives of resistance in African American Afro Caribbean and Afro Latin American Literature resistance in politics education religion music dance and film exploring a range of new perspectives from established and emerging researchers on Black communities The essays in this pivotal book discuss some of the mechanisms that Black communities have used to resist bondage domination disempowerment inequality and injustices resulting from their encounters with the West from colonization to forced migration

Paint the White House Black Michael P. Jeffries, 2013-02-13 Barack Obama s election as the first black president in American history forced a reconsideration of racial reality and possibility It also incited an outpouring of discussion and analysis of Obama s personal and political exploits Paint the White House Black fills a significant void in Obama themed debate shifting the emphasis from the details of Obama s political career to an understanding of how race works in America In this groundbreaking book race rather than Obama is the central focus Michael P Jeffries approaches

Obama's election and administration as common cultural ground for thinking about race. He uncovers contemporary stereotypes and anxieties by examining historically rooted conceptions of race and nationhood, discourses of biracialism and Obama's mixed heritage, the purported emergence of a post-racial society and popular symbols of Michelle Obama as a modern black woman. In so doing, Jeffries casts new light on how we think about race and enables us to see how race in turn operates within our daily lives. Race is a difficult concept to grasp with outbursts and silences that disguise its relationships with a host of other phenomena. Using Barack Obama as its point of departure, *Paint the White House Black* boldly aims to understand race by tracing the web of interactions that bind it to other social and historical forces. *Trabelin' on* Mechal Sobel, 1979. Mechal Sobel's fascinating study of the religious history of slaves and free blacks in antebellum America is presented here in a compact volume without the appendixes. Sobel's central thesis is that Africans brought their world views into North America where eventually under the tremendous pressures and hardships of chattel slavery they created a coherent faith that preserved and revitalized crucial African understandings and usages regarding spirit and soul travels while melding them with Christian understandings of Jesus and individual salvation. *A Resemblance* Clare Benedict, 1909
