Project Finance in Construction Tony Merna, Yang Chu, Faisal F. Al-Thani, 2010-06-04 Project finance has spread worldwide and includes numerous industrial projects from power stations and waste disposal plants to telecommunication facilities bridges tunnels railway networks and now also the building of hospitals education facilities government accommodation and tourist facilities Despite financial assessment of PF projects being fundamental to the lender's decision there is little understanding of how the use of finance is perceived by individual stakeholders why and how a financial assessment is performed who should be involved where and when it should be performed what data should be used and how financial assessments should be presented Current uncertainty in financial markets makes many sponsors of construction project financings carefully consider bank liquidity the higher cost of finance and general uncertainty for demand This has resulted in the postponement of a number of projects in certain industry sectors Governments have seen tax receipts drastically reduced which has affected their ability to finance infrastructure projects often irrespective of the perceived demand Equity providers still seek to invest however there are less opportunities due to market dislocation Due to the demand for global infrastructure it is believed that project financings will return to their pre crunch levels or more so however lenders liquidity costs will be passed on to the borrowers Lenders will also be under stricter regulation both internally and externally The steps outlined in the guide are designed to provide a basic understanding for all those involved or interested in both structuring and assessing project financings Secondary contracts involving constructors operators finance providers suppliers and offtakers can be developed and assessed to determine their commercial viability over a project's life cycle Special Features a structured guide to assessing the commercial viability of construction projects explains economic metrics to use in the decision making process detailed case study shows how stakeholders apply the concept of project finance

Modern Project Finance Benjamin C.

Esty,2003-10-17 This cutting edge financial casebook is divided into four modules Structuring Projects Valuing Projects Managing Project Risk and Financing Projects The cases have been carefully selected to reflect actual use of project finance over the past five years in terms of geographic location the cases come from 15 different countries and industrial sectors Benjamin Esty of the Harvard Business School is one of the leading scholars in project finance Project finance is becoming the financing mechanism of choice for many private firms Cases require the reader to integrate knowledge from multiple disciplines when making a single managerial decision This integration of functional areas such as strategy operations ethics and human resource management encourages the reader to adopt a more integrative perspective and understanding of the interconnectedness of managerial decision making *8th International Conference on Engineering, Project, and Product Management (EPPM 2017)* Sümer Şahin,2018-03-14 This book presents the proceedings of the 8th International Conference on Engineering Project and Product Management EPPM 2017 highlighting the importance of engineering project and product management in a region of the world that is in need of transformation and rebuilding The aim of the conference was to bring together the greatest minds in engineering and management and offer them a platform to share their innovative and potentially transformational findings The proceedings are comprehensive multidisciplinary and advanced in their approach with an appeal not only for academicians and university students but also for professionals in various engineering fields especially construction manufacturing and production The Law and Business of International Project Finance Scott L. Hoffman,2007-10-22 This 2007 third edition continues to be a comprehensive and authoritative guide to the business practice law and practical use of project finance It covers the complete project finance structure from conception to negotiation to debt closing and from project difficulties to successful restructuring The book continues to be accessible to those with little experience in project finance while maintaining the insight and detail of previous editions that has made it a valuable reference for the experienced lawyer manager banker contractor and government official This edition focuses on a real world practical approach to project finance without the overuse of case studies and economic theory Yet the contract forms detailed glossary index and project finance bibliography make it a complete text **Project Finance in Africa** Joshua Yindenaba Abor,Elikplimi Kolma Agbloyor,Paul Gbahabo,Saint Kuttu,Ashenafi Fanta,Baah Aye Kusi,2025-02-14 Infrastructure drives economic growth and sustainable development by facilitating productivity attracting foreign investment promoting industrialisation reducing poverty improving standards of living and enhancing human development Thus the development of project oriented frameworks institutions that offer long term infrastructure financing has been identified as a core and guaranteed way to maximise economic growth and development especially for developing regions like Africa Project finance has a critical role in infrastructure development This book examines the project finance ecosystem methods analysis and key related risks Its unique contribution to the literature is its focus on Africa where there is a huge infrastructure investment deficit and a lack of technical know how to bridge this gap Following a detailed introduction to project finance the book

investigates project viability project characteristics risk analysis and management structure and legal issues in the context of project finance as well as project finance markets banks and syndicated lending financing the deal and the role of project advisors It also offers insight into financial modelling and project evaluation credit risk in project finance from the lender s perspective and the role of project finance in the petroleum industry The book provides two African related case studies of project finance The book incorporates theoretical perspectives valuable policy insights and resources and offers strategies to improve and reform the structure and implementation of project finance in Africa It provides scholarly and professionally engineered knowledge and while each chapter explains and discusses several related issues the case studies offer a real life learning and teaching experience for academics and students to enhance their understanding of the issues under discussion
