Human Frontiers Michael Bhaskar, 2021-10-26 Why has the flow of big world changing ideas slowed down A provocative look at what happens next at the frontiers of human knowledge The history of humanity is the history of big ideas that expand our frontiers from the wheel to space flight cave painting to the massively multiplayer game monotheistic religion to quantum theory And yet for the past few decades apart from a rush of new gadgets and the explosion of digital technology world changing ideas have been harder to come by Since the 1970s big ideas have happened incrementally recycled focused in narrow bands of innovation In this provocative book Michael Bhaskar looks at why the flow of big world changing ideas has slowed and what this means for the future Bhaskar argues that the challenge at the frontiers of knowledge has arisen not because we are unimaginative and bad at realizing big ideas but because we have already pushed so far If we compare the world of our great great great grandparents to ours today we can see how a series of transformative ideas revolutionized almost everything in just a century and a half But recently because of short termism risk aversion and fractious decision making we have built a cautious unimaginative world Bhaskar shows how we can start to expand the frontier again by thinking big embarking on the next Universal Declaration of Human Rights or Apollo mission and embracing change

World Economic Performance D. S. Prasada Rao, B. Van Ark, 2013-07-01 Not only is this excellent collection of papers a fitting tribute to Angus Maddison it is also a great resource for thinking about future patterns of global economic growth both in the BRICS and the OECD based on key insights from historical experience Nicholas Crafts University of Warwick UK Angus Maddison may no longer be with us but his spirit is very much alive This collection of essays including one by Maddison himself shows how the methods he

pioneered continue to shed new light on the comparative performance of nations and inspire successive generations of scholars Barry Eichengreen University of California at Berkeley US The distinguished editors leading authorities in the field of comparative quantitative economic development have gathered a stellar group of authors to address arguably the most challenging question of our time understanding development dynamics over time and across countries They are to be congratulated for this comprehensive stimulating and insightful volume It is a fitting tribute to the late Angus Maddison an intellectual giant in the study of long term economic development to whom the book is dedicated Hal Hill Australian National University World economic performance over the last 50 years has been spectacular The post war period has witnessed impressive growth rates in Western Europe and Japan and in recent times China and India This new book discusses these issues and tackles topical questions such as what are the socio economic and institutional factors that have contributed to this impressive performance Will China and India continue to grow at the same rate over the next two decades What are the prospects for Japan the US and other advanced economies The book brings together contributions by eminent scholars including the late Angus Maddison Professors Justin Lin Bob Gordon Ross Garnaut Bart van Ark and others to provide answers to these fascinating questions The chapters analyse the economic performance of selected countries including China India Japan Indonesia and the US as well as Western Europe Latin America and developing countries as a group The time period of the study is from 1850 to the present and includes forecasts to 2030 This well documented book will be of considerable interest to development economists and country specialists working on countries such as China and India economic historians who are interested in explaining the growth performance of countries economists and economic statisticians who are interested in the measurement issues and international organizations such as the OECD World Bank and the UN General readers and non specialists who are interested in the world economic performance will also find much to interest them in this book
