New Universe Theory with the Laws of Physics Bobby McGehee, 2005 Big Bang Do you believe it I don't Being a career engineering physicist I always look for proof For 50 years I have tried to prove the BB to myself I have reviewed Slipher's red shift observation reinterpreted it and corrected Hubble's declaration the universe is not expanding and exploding to its death instead it is growing with vim and vigor Red shift defines velocity not acceleration or deceleration So I developed the New Universe Theory which is believable because it complies with known facts and the Laws of Physics

Model of the Universe Bobby McGehee, 2010-02 This Model of the Universe concludes the universe to be a spherical region within a much larger region of primordial matter Primordial Matter is determined to be an endless array of positroniums matter and antimatter particles stabilized in and by an equally spaced 6 cm hexahedron arrangement When positron and electron particles come in contact they annihilate into photons when photon concentrations become adequate they precipitate into corporeal matter of the universe The initial annihilation started a chain reaction from a single it is only converted from one form of matter into another All processes in this Model have been proven and verified all are consistent with the Laws of Physics *McGraw-Hill Encyclopedia of Science & Technology* Sybil P.
