November December 2017 Mit Technology Review:

Future Politics Jamie Susskind, 2018-09-12 Future Politics confronts one of the most important questions of our time how will digital technology transform politics and society The great political debate of the last century was about how much of our collective life should be determined by the state and what should be left to the market and civil society In the future the question will be how far our lives should be directed and controlled by powerful digital systems and on what terms Jamie Susskind argues that rapid and relentless innovation in a range of technologies from artificial intelligence to virtual reality will transform the way we live together Calling for a fundamental change in the way we think about politics he describes a world in which certain technologies and platforms and those who control them come to hold great power over us Some will gather data about our lives causing us to avoid conduct perceived as shameful sinful or wrong Others will filter our perception of the world choosing what we know shaping what we think affecting how we feel and guiding how we act Still others will force us to behave certain ways like self driving cars that refuse to drive over the speed limit Those who control these technologies usually big tech firms and the state will increasingly control us They will set the limits of our liberty decreeing what we may do and what is forbidden Their algorithms will resolve vital questions of social justice allocating social goods and sorting us into hierarchies of status and esteem They will decide the future of democracy causing it to flourish or decay A groundbreaking work of political analysis Future Politics challenges readers to rethink what it means to be free or equal what it means to have power or property what it means for a political system to be just or democratic and proposes ways in which we can and must regain control

Vincennes University Vincennes IN USA Focus On: 100 Most Popular English Emigrants to the United States Wikipedia contributors, The Elusive Body Alexandra Sifferlin,2026-03-31 I found Ms Sifferlin s book entertaining enlightening and in addition timely a book mindful of science in this era when crackpot notions about public health and medicine are routinely issued from on high Tracy Kidder Pulitzer Prize winning author of Mountains Beyond Mountains A compelling necessary and timely investigation into the diagnosis crisis in the American healthcare system from the patients living with undiagnosed illnesses to the doctors searching for answers and what their quests reveal about our flawed medical system Millions of Americans live with conditions that elude diagnosis often navigating a healthcare system that fails to recognize or effectively address their suffering Journalist Alexandra Sifferlin has spent years investigating the diagnosis crisis in America what it means to live without an accurate diagnosis and how both medical and patient communities are working to improve the diagnostic process The National Institutes of Health s Undiagnosed Diseases Network a series of clinics of last resort where physicians and researchers work tirelessly to solve some of medicine s most confounding cases is at the forefront of change showing what s possible when healthcare providers and scientists are freed from the bureaucracy of a system beholden to insurance companies and encouraged to work together with the aim of solving some of medicine s most perplexing mysteries A correct diagnosis is more than a label it s a lifeline that opens doors to treatment options financial support and an understanding community Weaving the profound maddening and uplifting stories of patients seeking answers to unexplainable symptoms the doctors trying to help them and the latest research on diagnosis *The Elusive Body* illuminates the diagnostic journey revealing why diagnoses matter and how they have the power to transform lives the medical system and even society one case at a time *The Nigerian Criminal Law in the Global Phenomenal of Information and Communication Technology* David Vanteko,2022-11-21 Bachelor Thesis from the year 2019 in the subject Law Data protection grade 71 0 course Digital Law language English abstract This study examines the stand point of Nigerian criminal law on Information and Communications Technology ICT the jurisprudence of an emerging E law the Impact of Information Technology on court process and how ICT has changed the face of crime It further appraises selected concepts associated with ICT in contemporary issues as they relate This study shall rely on both primary and secondary sources of information The primary sources include the Evidence Act 2011 The Economic Financial Crimes Commission Act Criminal Code 2004 Cybercrimes Act 2015 and International Conventions The secondary source includes textbooks journals articles opinions of legal luminaries and the internet The ICT revolution has brought along Computer Crimes cyber crimes which poses a serious challenge to the Nigerian Judiciary Issues of Criminal Trespass into another computer theft of computer data the use of internet to commit or aid in the commission of fraud could hardly be established through the conventional standards of evidence in the Nigeria criminal system Most statutes both substantive and subsidiary are not ICT proactive In fact some laws and rules of procedure run counter to ICT regime These have to be reviewed before electronic and computer generated

evidence can be admissible in our courts¹³ Commercial transactions that are electronically conducted will be difficult to establish under the Evidence Act because of non compliance with some provisions of the Act For instance it would not be possible under the Act to prove PIN number as representing signatures in a transaction that was conducted electronically Increased inflow of foreign investors and development partners whose systems are wholly ICT based would compel the Nigerian Courts to embrace IT otherwise confidence of these investors and partners may be eroded Provision and maintenance of ICT infrastructure and equipment is capital intensive The Nigerian Judiciary particularly in the states lack the resources to undertake the venture Added to this is the problem of our maintenance culture erratic power supply and poor capacity building

Fighting back against fake news how does it interfere in democratic processes particularly elections Since summer 2016 fake news has denoted the deliberate viral spreading of false information on the internet and social media with the intention for example of discrediting a political party tarnishing someone s reputation or casting doubt on scientific truth This practice which hinders citizens in making informed decisions has become very widespread Its impact is especially significant not only because of how quickly fake news spreads but also because identifying the authors of such campaigns and digital material is very difficult This report attempts to provide responses to issues raised by this phenomenon in particular during electoral
