

# Coasting Theory Lectures Notes

Markus Hupfer and members of the team

September 7, 2024

These are the notes for the first lecture, *Foundations of Coasting Theory*. These are generalised and give insights on problems for all of the course parts. Some are generalised with insights on the lecture, the likely contribution to Coasting Theory and the needs of students and their (potential) supervisors. I also used these notes as a starting point for the lecture. *Part II* covers general knowledge on Coasting Theory and (supervised) projects for Professor John Hupfer, and the rest covers notes from a (potential) PhD or (supervised) postgraduate course given by Professor John Hupfer. I also included notes from other lecturers in 2023 courses, Applied Maths for the Phys. Mathematics, and the setting of the notes is based on John Hupfer's course notes, "Coasting Theory".

All credits go to those who set up my desk.
