

## Ch. 3 Migration

### Migration: Key Issues

#### 3.1 Where Are Migrants Distributed?

#### 3.2 Where Do People Migrate Within Countries?

#### 3.3 Why Do People Migrate?

#### 3.4 Why Do Migrants Face Challenges?

### Key Issue 1: Where Are Migrants Distributed?

#### 3.1.1 Migration and Geography

#### 3.1.2 International and Internal Migration

#### 3.1.3 Immigration and Emigration

#### 3.1.4 Changing U.S. Immigration

#### 3.1.1 Migration and Geography

- Migration is a permanent move to new location
- Mobility: one's ability to move from place to place. Not all mobility is migration. Short-term, repetitive movement (e.g., going to work on a daily basis) is known as circulation
- The migration transition is a change in the migration pattern in a society that results from the social and economic changes that also produce the demographic transition migration patterns change with demographic transition. (Wilbur Zelinsky)

**Table 3-1:** Changes in the demographic transition happen in tandem with changes in the migration transition.

Stage	Demographic Transition	Migration Transition
1	Low NIR, high CBR, high CDR	High daily or seasonal mobility in search of food
2	High NIR, high CBR, rapidly falling CDR	High international emigration and interregional migration from rural to urban areas
3	Declining NIR, rapidly declining CBR, declining CDR	High international immigration and intraregional migration from cities to suburbs
4	Low NIR, low CBR, low CDR	Same as stage 3

**Figure 3-3:** California, New York, Florida, and Texas are the leading destinations for immigrants.

#### 3.1.2 International and Internal Migration

- A permanent move from one country to another is international migration. International migration is further divided into two types:
  1. Voluntary migration means that the migrant has chosen to move, usually for economic reasons, though sometimes for environmental reasons
  2. Forced migration means that the migrant has been compelled to move by political or environmental factors

**Figure 3-5:** Major international flows in 2014 were out of South Asia, East Asia, and Latin America and into North America, Europe, and Southwest Asia.

**Figure 3-7:** Mexico's migration flows are both international and internal. Internal flows are both intraregional and interregional.

- A permanent move within the same country is internal migration
- There are two types of internal migration:
  1. Interregional: movement from one region to a different one
  2. Intraregional: movement within one region

**Figure 3-6:** Jobs Fair for interregional migrants seeking work in Tijuana, Mexico.
