Gatewood,2012-12-06 The basic partial differential equations for the stresses and displacements in classical three dimensional elasticity theory can be set up in three ways 1 to solve for the displacements first and then the stresses 2 to solve for the stresses first and then the displacements and 3 to solve for both stresses and displacements simultaneously These three methods are identified in the literature as 1 the displacement method 2 the stress or force method and 3 the combined or mixed method Closed form solutions of the partial differential equations with their complicated boundary conditions for any of these three methods have been obtained only in special cases In order to obtain solutions various special methods have been developed to determine the stresses and displacements in structures The equations have been reduced to two and one dimensional forms for plates beams and trusses By neglecting the local effects at the edges and ends satisfactory solutions can be obtained for many case The procedures for reducing the three dimensional equations to two and one dimensional equations are described in Chapter 1 Volume 1 where the various approximations are pointed out

Computer-Aided Processes in Instruction and Research George C. Beakley,C. R. Haden,2014-05-10 Computer Aided Processes in Instruction and Research describes the course content computer performance software developed and the manner that they are used by each student during the design process This book describes the database that is developed to further aid students who use the digital computer Organized into 24 chapters this book begins with an overview of the design of an aerospace vehicle This text then explains the fundamentals of microcomputers and the use of computer aided data acquisition in a mechanical measurements course Other chapters provide a brief explanation for the heavy use of graphics which is applied when comparing graphical input to numerical input This book presents as well a summary of work on a project that combines computer aided instruction CAI and artificial intelligence AI The final chapter deals with the establishment of a joint venture between universities and industry whereby the university utilizes equipment provided by industry to solve some of the existing problems This book is a valuable resource for engineering students and practicing engineers
