*Discourse Analysis for Language Teachers* Michael McCarthy, 1991-05-02 A practical introduction to the field of discourse analysis and its relevance for language teaching      **Language as Discourse** Michael McCarthy, Ronald Carter, 2014-07-22

In this book Michael McCarthy and Ronald Carter describe the discursive properties of language and demonstrate what insights this approach can offer to the student and teacher of language The authors examine the relationship between complete texts both spoken and written and the social and cultural contexts in which they function They argue that the functions of language are often best understood in a discursive environment and that exploring language in context compels us to revise commonly held understandings about the forms and meanings of language In so doing the authors argue the need for language teachers syllabus planners and curriculum organisers to give greater attention to language as discourse

**Issues in Applied Linguistics** Michael McCarthy, 2001-02 This book provides a wide ranging treatment of the major issues in applied linguistics      Spoken Language and Applied Linguistics Michael McCarthy, 1998-12-03 This book argues for putting spoken language at the centre of the syllabus

*Beyond Training* Jack C. Richards, 1998-02-13 *Beyond Training* examines the nature of second language teacher development and how teachers practices are influenced by their beliefs and principles It seeks to move discussion of language teacher development beyond the level of training which reflects a technical view of specific teaching practices Instead it takes a more holistic approach to teacher development built on the notion of the teacher as critical and reflective thinker The argument pursued throughout is that teacher education needs to engage teachers not merely in the mastery of techniques but in an exploration of the knowledge beliefs and attitudes that underly their teaching practices      *Teaching*

*the Spoken Language* Gillian Brown, George Yule, 1983-11-24 In this book the authors examine the nature of spoken language
