* Three credits of MATH 2413 fulfill the Mathematics requirement, one credit is assigned to the Component Area Option.

Computer Use: Mechanical Engineering students obtain skills in using computers in ENGR 1204 and MENG 3348.

Mechanical Engineering Program Description

The mechanical engineer may design a component, a machine, a system or a process. Mechanical engineers analyze their design using the principles of physics to insure the product functions safely, efficiently, reliably, and can be manufactured at a competitive cost. Mechanical engineers work in automotive, aerospace, chemical, computer, communication, paper, and power generation industries. Mechanical engineers are found in virtually any manufacturing industry.
