A nurse is teaching a client who is scheduled for an intravenous pyelogram. The nurse should identify that which of the following client statements indicates an understanding of the procedure? - correct answers-"Contrast dye will be used for this test."

The nurse should ensure the client understands that a contrast dye is injected through a vein to visualize the passage of urine from the renal pelvis to the bladder. A nurse manager is teaching about the rights of delegation to assistive personnel (AP) and practical nurses (PN). Which of the following examples should the nurse manager include in the teaching? - correct answers-

Delegating a PN to insert an indwelling urinary catheter

The insertion of an indwelling urinary catheter is a nursing responsibility. The RN must be the one to assess the client's need for catheterization and can then delegate the responsibility of insertion to a PN.
