Tools and Techniques for Implementing International E-Trading Tactics for Competitive Advantage Meral, Yurdağül, 2019-09-20
The use of ICT applications has dipped into almost every aspect of the business sector, including trade. With the volume of e-commerce increasing, international traders must switch their rules and practices to e-trade to survive in such a competitive market. However, the complexity of international trade, which covers customs, processes, different legislation, specific documentation requirements, different languages, different currencies, and different payment systems, and risk presents its own challenges in this transition. *Tools and Techniques for Implementing International E-Trading Tactics for Competitive Advantage* examines the multidisciplinary approach of international e-trade as it applies to information technology, digital marketing, digital communication, online reputation management, and different legislation and risks. The content within this publication examines digital advertising, consumer behavior, and e-commerce and is designed for international traders, entrepreneurs, business professionals, researchers, academicians, and students.

Research in IT for Beginners Mohammad Yasser Chuttur, 2021-01-14
The book *Research in IT for Beginners* is especially intended for undergraduate and graduate students who have no experience conducting academic research in the field of Information Technology (IT) and who wish to have a quick overview of the different stages of the research process. Through a gentle introduction to the concept of research, main research paradigms, and research strategies and methods, this book will help students take their first steps in planning for a research study. Additionally, this book details the contents that make up a research proposal along with a discussion of the precautions to take for good academic writing. At the end of each chapter, students will also find a summary and review questions that help focus on the main points covered. Overall, this book can be used as an instruction material for a course in Research Methodology or it can be used on its own as a referencing material when embarking on a research journey.
