Classical Myth on Screen M. Cyrino, M. Safran, 2015-04-08 An examination of how screen texts embrace refute and reinvent the cultural heritage of antiquity this volume looks at specific story patterns and archetypes from Greco Roman culture The contributors offer a variety of perspectives highlighting key cultural relay points at which a myth is received and reformulated for a particular audience

Classical Myth in Alfred Hitchcock's Wrong Man and Grace Kelly Films Mark William Padilla, 2018-12-12 Mark Padilla's classical reception readings of Alfred Hitchcock features some of the director's most loved and important films and demonstrates how they are informed by the educational and cultural

classicism of the director's formative years. The six close readings begin with discussions of the production histories so as to theorize and clarify how classicism could and did enter the projects. Exploration of the films through a classical lens creates the opportunity to explore new themes and ideological investments. The result is a further appreciation of both the engine of the director's storytelling creativity and the expressionism of classicism especially Greek myth and art in British and American modernism. The analysis organizes the material into two triptychs: one focused on the three films sharing a wrong man pattern (wrongly accused man goes on the run to clear himself) the other treating the films starring the actress Grace Kelly. Chapter One on *The 39 Steps* (1935) finds the origins of the wrong man plot in early 20th century British classicism and demonstrates that the movie utilizes motifs of Homer's *Odyssey*. Chapter Two on *Saboteur* (1942) theorizes the impact of the director's memories of the formalism and myths associated with the Parthenon sculptures housed in the British Museum. Chapter Three on *North by Northwest* participates in the myths of the hero Oedipus as associated with early Greek epic, Freud, Nietzsche, and Sophocles. Chapter Four on *Dial M for Murder* (1954) returns to Homer's *Odyssey* in the interpretive use of the lay of Demodocus, a story about the sexual triangle of Hephaestus, Aphrodite, and Ares. Chapter Five on *Rear Window* (1954) finds its narrative archetype in The Homeric Hymn to Aphrodite; the erotic theme of Sirius the Dog Star also marks the film. Chapter Six on *To Catch a Thief* (1955) offers the opportunity to break from mythic analogues and to consider the film's philosophical resonances. Plato and Epicurus in the context of motifs coalesced around the god Dionysus/Bacchus.

Classical Mythology Mark P. O. Morford, Robert J. Lenardon, 1999. *Classical Mythology* Sixth Edition continues to build on its best-selling tradition of focusing on the literary tradition of Greek and Roman mythology through extensive translations of original mythological sources. Its coverage of comparative and interpretative approaches as well as evidence from art and archeology is expanded in this edition. Morford and Lenardon's insightful and accessible discussion of classical myths in their historical and cultural settings as well as their survival in literature, art, music, and film remains unparalleled. This comprehensive introduction to classical mythology features new translations, expanded critical coverage, an expanded art program, and a new web site. *The World of Classical Myth* Carl A. P. Ruck, Danny Staples, 1994. The in-depth and well-researched material in *The World of Classical Myth* is presented against a background of history, archaeology, social custom, religion, topography, and monuments. Part One, Orientation, defines mythology and portrays it as an evolving pattern constantly undergoing revision to keep pace with the evolution of the culture. Hence mythology offers an archaeology of a people's changing sense of identity. Part Two, Transmutations, portrays symbolic forms as eternal and archetypal, never annihilated but merely changing appearance to meet the demands of changing times. Hence the analysis of the iconography and worship of the twelve Olympian deities paints a picture of their evolution into their Classical identities. Part Three, The Liminal Hero, describes the two ways of telling a hero's story: either the hero steps forward to found a new world and defeat the past, or he steps back to become the fundament of his present world. Part Four, Liminal Heroines, delineates the three versions of the

heroine's identity maiden mother and witch and explores the portrayal of women in classical mythology Staples and Ruck follow these themes through the course of Classical Myth incorporating over 100 illustrations and maps integral to the presentation of the material The book also offers new perspectives on the goddesses and heroines of classical mythology and on the role of women in antiquity It is indeed a cause for some alarm that so important a subject as Greek Mythology has hitherto lacked an adequate primary textbook Ruck's book may well be the long awaited remedy I am impressed not only by his knowledge and organization but also by his patent concern for student needs Professor C Robert Phillips III Lehigh University
