**Content and Language Integrated Learning. An Exemplary Lesson Plan**, 2024-04-18 Seminar paper from the year 2018 in the subject Didactics English grade 2 0 University of G ttingen language English abstract This paper is dedicated to the concept of CLIL Content and Language Integrated Learning In order to get a good impression of what this means the first chapter will introduce the concepts and theory of CLIL and explain why it should be used In the following chapters I will present a lesson I have developed about the structure of North American cities In this lesson the learners will draw their own map of Rochester NY guided by a step by step instruction and finally I will reflect the lesson and evaluate it It becomes indisputably more important to be able to speak more than one language as the world is constantly growing together This raises the question what ways there are to obtain the skill to speak another language apart from the native language The appendix includes the complete material for the lesson including worksheets and everything else that was used as well as the lesson plan

**A School Garden Project. A Planned CLIL Unit** Jennifer Müller, 2023-05-15 Lesson Plan from the year 2022 in the subject Didactics for the subject English Miscellaneous grade 1 3 Martin Luther University Institut f r Schulp dagogik und Grundschuldidaktik course Content and Language Integrated Learning in the Classroom language English abstract One of the main characteristics of CLIL is that students learn about content e g science ethics or physical education and through an additional language other than their mother tongue When it comes to evaluate the potential of CLIL the pros and also the challenges of teaching content and language at the same time have to be considered Therefore it should also be differentiated that there are differences between Hard CLIL and Soft CLIL Hard CLIL focuses on the main goal of acquisition of subject knowledge It is taught by a teacher of this specific subject who has to follow the curriculum Other than that Soft CLIL puts emphasis on language benefits and takes up parts of the curriculum of a subject only There the teacher of a foreign language holds the lesson or units During our seminar we focused on Soft CLIL but there is still a lack of already prepared and tested material for both types of CLIL The choice of which CLIL is implemented often depends on several factors like teacher availability amount of time the capacity to implement CLIL in general networking etc 13 It is obvious that there has to be thoughtful planning before implementing CLIL in schools But not only before implementing CLIL in the classrooms but also while preparing specific units there has to be thoughtful planning as well because there is a lot to convey in CLIL lessons e g the vocabulary and basic skills like reading listening writing speaking as well as the subject content To plan a good lesson the teacher has to be and has to prepare much material using e g scaffolding and glossaries This fact can cause time problems for the teacher Apart from that a challenging factor could be the overload of subject input Some students struggle with language issues and therefore could have problems to process the content in the appropriate depth That makes it necessary to very closely supervise the process but this depending on the number of students can sometimes

be quite challenging The teacher has to provide a range of necessary vocabulary with subject terminology to make sure the students are able to follow the content
