McEvoy, Laurence Gane, Nigel C. Benson, Stuart Sim, Sharron Shatil, 1998

Introducing Philosophy Dave Robinson, Judy Groves, 2014-06-05 Philosophers have always enjoyed asking awkward and provocative questions such as What is the nature of reality What are human beings really like What is special about the human mind and consciousness Are we free to choose who we are and what we do Can we prove that God exists Can we be certain about anything at all What is truth Does language provide us with a true picture of the world How should we behave towards each other Do computers think **Introducing Philosophy** is a comprehensive graphic guide to the thinking of all the significant philosophers of the Western world from Heraclitus to Derrida It examines and explains their key arguments and ideas without being obscure or solemn Lively and accessible it is the perfect introduction to philosophers and philosophical ideas for anyone coming to the subject for the first time **Introducing Anthropology** Merryl Wyn-Davis, 2014-12-01 Anthropology originated as the study of primitive cultures But the notion of primitive exposes presumptions of civilized superiority and the right of the West to speak for less evolved others With the fall of Empire anthropology became suspect and was torn by dissension from within Did anthropology serve as a handmaiden to colonialism Is it a science created by racism to prove racism Can it aid communication between cultures or does it reinforce our differences **Introducing Anthropology** is a fascinating account of an uncertain human science seeking to transcend its unsavoury history It traces the evolution of anthropology from its genesis in Ancient Greece to its varied forms in contemporary times Anthropology's key concepts and methods are explained and we are presented with such big name anthropologists as Franz Boas Bronislaw Malinowski E E Evans Pritchard Margaret Mead and Claude Levi Strauss The new varieties of self critical and postmodern

**ECPER Journal of Social Studies** ,2004 *The Publishers' Trade List Annual* ,1979 [The British National Bibliography](#) Arthur James Wells,2009 [The Educational Screen](#) ,1929 **Educational Screen** ,1930 **Educational Screen and Audiovisual Guide** ,1930 **1999 Writer's Market** Mark Garvey,Holm,1998-09 Does everything but stamp your self addressed envelopes St Paul PioneerPress IBM compatible CD ROM *Country Guide and Nor'west Farmer* ,1914 [Political Philosophy](#) Adam Swift,2019-05-10 Politicians invoke grand ideas social justice democracy community liberty equality But what do these ideas really mean How can politicians across the political spectrum appeal to the same values This fourth edition of Adam Swift s highly readable introduction to political philosophy answers these important questions and includes new material on issues such as nationalism immigration and multiculturalism as well as updated guides to further reading This lively and accessible book is ideal for students but it also brings the insights of the world s leading political philosophers to a wide general audience Using plenty of examples it equips readers to think for themselves about the ideas that shape political life Democracy works best when both politicians and voters move beyond rhetoric to think clearly and carefully about the values and principles that should govern their society But clear thinking is difficult in an age when established orthodoxies have fallen by the wayside and political debate is becoming increasingly tribal and raucous Bringing political philosophy out of the ivory tower and within the reach of all this book provides us with tools to cut through the complexities and penetrate the smokescreens of modern politics In so doing it makes a valuable contribution to the democratic process and this new edition will continue to be essential reading for students of political philosophy and theory
