**Teaching English Learners in Inclusive Classrooms** Elva Duran, 2020-08-11 This newly revised text Teaching English Learners in Inclusive Classrooms updates and expands upon issues of great concern to those working with students who are English learners as well as having special learning challenges Given the unacceptable school drop out rates of these students this book provides practical tools and strategies for educators to approach the unique learning needs of these students It draws upon the most current laws and research in the interconnected fields of bilingual and multicultural education language and literacy and special needs Additionally Dr Duran draws upon her extensive experiences via classroom teaching university level instruction and textbook

writing in these fields to present a highly useful compendium of ideas. The range of chapters exemplifies the width and breadth of this material. A sampling of these chapters include topics such as functional language teaching students with more extensive needs, working with cross cultural and linguistic diverse students in the U S and Central America, helping students with autism and includes information in the area of transition for mild moderate and students with more extensive needs. There is also information as before on literacy and a chapter in the content subjects as it relates to social studies as well as a chapter on families of cross cultural students. Many of the chapters look to use of direct instruction approaches that have proven to be successful strategies in addressing these educational areas. Teachers and teacher trainers will find this clear well written text to be an invaluable resource in addressing the needs of myriad and unique students.

*The Special Educator's Guide to Assessment* Tara S. Guerriero, Mary A. Houser, Vicki A. McGinley, 2020-07-23. Special education students often learn about the characteristics of disabilities but can lack an understanding of the relationship between diagnostic assessment and eligibility for special education services. The Special Educator's Guide to Assessment: A Comprehensive Overview by IDEA Disability Category focuses on the role that assessment plays in the diagnosis of a disability determination of eligibility for special education services and education of students with disabilities to provide a meaningful interconnection between assessment concepts and classroom application for teachers. Authors Tara S. Guerriero, Mary A. Houser and Vicki A. McGinley want to ensure that future special education teachers have the preparation to provide comprehensive instruction to P-12 students through this text. While special education teachers are often not the ones conducting comprehensive evaluations, it is paramount that they understand their students' individual characteristics and understand how assessment is used to determine diagnosis and eligibility. Framing the text around the Individuals with Disabilities Act, IDEA provides students with concrete standards by which all disabilities are evaluated and regulated in our public educational system. Part I introduces the basic topics of assessment ethics and assessment types. Part II moves on to provide diagnostic and eligibility criteria according to IDEA categories that are most commonly diagnosed in an educational setting, while Part III describes the criteria for IDEA categories most commonly diagnosed in a medical setting. Features like case studies and sample comprehensive evaluations help bring to life assessment and how it applies in real classrooms. Included with this title is the password protected Instructor Resource Site, formally known as SAGE Edge, which offers access to all text-specific resources, including a test bank and editable chapter-specific PowerPoint slides.
