J.E. Roewecklein,2006-01-19 In attempting to understand and explain various behaviour events and phenomena in their field
psychologists have developed and enunciated an enormous number of best guesses or theories concerning the phenomenon
in question Such theories involve speculations and statements that range on a potency continuum from strong to weak The
term theory itself has been conceived of in various ways in the psychological literature In the present dictionary the strategy
of lumping together all the various traditional descriptive labels regarding psychologists best guesses under the single
descriptive term theory has been adopted The descriptive labels of principle law theory model paradigm effect hypothesis
and doctrine are attached to many of the entries and all such descriptive labels are subsumed under the umbrella term
theory The title of this dictionary emphasizes the term theory implying both strong and weak best guesses and is a way of
