Chapter 8 - Human-Environment Interactions: The Tropical and The Subtropical Region

There are more than seven billion lives on Earth. All of them are parts of the complete ecosystem. The earth's environment gives us our basic needs, and quite naturally, many of us have the same requirements as others for a living. These basic needs include food, cloth, and shelter. Therefore, despite our distinct appearance, characteristics, and cultures, we are all the same species. This is why human-environment interactions of the Tropical and Subtropical Regions of the planet are important for learning the various aspects of its wildlife, population, etc. In CBSE Class 7 Social Science Geography Chapter 8, you will be learning about these interactions in detail.
