## Mims Drug Guide:

**MIMS**, 2022     **Pharmacology for Health Professionals** Bronwen Jean Bryant, Kathleen Mary Knights, 2011

Pharmacology for Health Professionals provides a comprehensive introduction to important pharmacology principles and concepts with a strong focus on therapeutics. The text has been extensively updated to reflect the latest information on the clinical use of drugs, local aspects of scheduling, drug legislation, and ethics. Book Jacket     *Pharmacology in Midwifery -*

*E-Book* Roslyn Donnellan - Fernandez, Maryam Bazargan, Clare Davison, Michelle Gray, Kirsten Small, 2024-06-01

Pharmacology in Midwifery has been written specifically for midwives in Australia and New Zealand and focuses on medications and their management, a core subject of the nursing curriculum and an integral part of practice. Written by highly respected experts in both pharmacology and midwifery, the textbook takes the reader through essential information about drugs and their therapeutic effects. It then explores pharmacology in the midwifery scope of practice, considering pregnancy, labour, birth, the postpartum period, and neonatal care, both for normal and low-risk pregnancies and women with complex needs. This book is a useful foundation text for midwifery students as well as for practising midwives wishing to refresh or augment their skills as prescribers. Relevant for midwifery students and midwives in Australia and New Zealand, it draws on trusted content from the highly respected *Pharmacology for Health Professionals* (Knights et al.), covering pharmacological considerations across pregnancy, labour, birth, the postpartum period, and neonatal care. Case studies and accompanying review questions in each chapter relate theory to real life, supporting midwives to refine and apply critical thinking, clinical judgement, and decision-making skills. It covers adverse drug reactions and interactions, including pharmacological considerations for women with complex needs throughout the childbearing continuum, such as diabetes, thyroid, mental health, epilepsy, drugs of addiction, and substance dependence. It aligns with ANMAC Standards, National Prescribing Framework, and NSQHSS Student and Instructor resources on Evolve. Additional case studies are included.
