**Biology Unit 1 for CAPE Examinations** Myda Ramesar, Mary Jones, Geoff Jones, 2011-03-17 Two new titles that provide comprehensive coverage of the syllabus Units 1 and 2 of Biology for CAPE Examinations provide a comprehensive coverage of the CAPE Biology syllabus Written by highly experienced internationally bestselling authors Mary and Geoff Jones and CAPE Biology teacher and examiner Myda Ramesar both books are in full colour and written in an accessible style Learning objectives are presented at the beginning of each chapter and to assist students preparing for the examination each chapter is followed by questions in the style they will encounter on their examination papers South African national bibliography, 1999 Classified list with author and title index **Farmers, Kings, and Traders** Martin Hall, 1990-10-15 In this overview of the origins and development of black societies in southern Africa Martin Hall reconstructs the region's past by thoroughly examining both the archaeological and the historical records Beginning with the gradual southward movement of the earliest farmers nearly two thousand years ago Hall tracks the emergence of precolonial states such as Mapungubwe and Great Zimbabwe **Farmers Kings and Traders** concludes with the devastating effects of colonialism Through a close reading of the accounts of early travelers colonialists archaeologists and historians Hall places in context the often contradictory histories that have been written of this region The result is an illuminating look at how ideas about the past have themselves changed over time **Index of Conference Proceedings** British Library. analyses of several key trade disputes between the bloc's two main partners Argentina and Brazil Gmez Mera proposes an explanation that emphasizes the tension between and interplay of two sets of factors power asymmetries within and beyond the region and domestic level politics Member states share a common interest in preserving MERCOSUR as a vehicle for increasing the region's leverage in external negotiations Gmez Mera argues that while external vulnerability and overlapping power asymmetries have provided strong and consistent incentives for regional cooperation in the Southern Cone the impact of these systemic forces on regional outcomes also has been crucially mediated by domestic political dynamics in the bloc's two main partners Argentina and Brazil Contrary to conventional wisdom however the unequal distribution of power within the bloc has had a positive effect on the sustainability of cooperation Despite Brazil's reluctance to adopt a more active leadership role in the process of integration its offensive strategic interests in the region have contributed to the durability of institutionalized collaboration However as Gmez Mera demonstrates the tension between Brazil's global and regional power aspirations has also added significantly to the bloc's ineffectiveness In a very engaging and accessible manner Laura Gmez Mera has successfully applied the standing theories of international relations to the case of MERCOSUR She has woven together international systemic and domestic theories as these pertain to the role and interaction of Brazil and Argentina the two main middle powers in MERCOSUR Through this analysis of regional integration and interstate conflict and cooperation Gmez Mera thoroughly covers all the necessary methodological bases while also bringing her subject to life The sectoral case studies she provides reflect a tremendous amount of original fieldwork those combined with a sophisticated conceptual framework comprise a valuable contribution to the field Carol Wise University of Southern California
