The Pre Algebra Doodle Note Book offers your middle school math student the brain benefits of visual note taking all throughout their coursework. The doodle notes include fractions, decimals, integers, percents, geometry, equations, expressions, proportions, probability, graphs, inequalities, the coordinate plane, slope, linear equations, systems, graphing, and more. Each workbook is licensed for only a single student to use. Copying pages is prohibited.

What's included:

- Over 170 doodle note pages for key concepts in Pre Algebra
- Chapter organizer cover pages
- Interactive vocabulary review pages for each chapter doodle style
- Bonus pages
- Answer Key
- Photo Samples for doodle note concept pages
- Teaching Tips
- Introductory Pages
- 10 different blank templates for any additional notes

Each chapter progresses through the lesson topics with guided notes, visual references, and graphic review sheets that follow the brain-based doodle note method.

CHAPTERS

- 18 Intro to Algebra

Math doodle notes activate both hemispheres of the brain and lead to increased focus and retention. Because of dual coding theory, the student brain can process the new content more easily through the interactive tasks, visual memory triggers, and opportunities to sketch, color, and embellish. This book contains interactive visual note templates. It replaces a notebook and possibly a textbook depending on the way you teach, but does not replace your practice problem set. Although the pages do offer some examples and problems, you will definitely want to supplement with plenty of practice homework on the side as well.

TEACHER REVIEWS

I could not believe the increase in engagement and understanding my students demonstrated. We love these! Perfect for students with Dyslexia, ADHD, or other learning disabilities. My 8th grade summer school who are mostly boys loved coloring the notes. I'm pleasantly surprised. Doodling helps my daughter's stress level during math lessons. Keeps them extremely focused. My students absolutely love the doodle notes, and they feel like they retain more information. The color coding helps them to make connections. My students and I are loving the doodle notes. They can't believe that I am telling them that they have to doodle. And they love watching me doodle too. Not only that, but I have already seen a major increase in their math scores.
