Chapter 33 Section 4 The Cold War Divides World

Answer

Daniela Niemeyer

Chapter 33 Section 4 The Cold War Divides World Answer:

Human Rights and the Digital Divide Anne Peacock, 2019-06-03 The Internet's importance for freedom of expression and other rights comes in part from the ability it bestows on users to create and share information rather than just receive it. Within the context of existing freedom of expression guarantees, this book critically evaluates the goal of bridging the digital divide, the gap between those who have access to the Internet and those who do not. Central to this analysis is the examination of two questions: first, is there a right to access the Internet, and if so, what does that right look like and how far does it extend? Second, if there is a right to access the Internet, is there a legal obligation on States to overcome the digital divide? Through examination of this debate's history, analysis of case law in the European Court of Human Rights and the Inter-American Court of Human Rights, and a case study of one digital inclusion programme in Jalisco, Mexico, this book concludes that there is indeed currently a legal right to Internet access, but one that is very limited in scope. The 2012 Joint Declaration on Freedom of Expression and the Internet is aspirational in nature rather than a representative summary of current protections afforded by the international human rights legal framework. This book establishes a critical foundation from which some of these aspirations could be advanced in the future. The digital divide is not just a human rights challenge; nor will it be overcome through human rights law alone. Nevertheless, human rights law could and should do more than it has thus far.

Transnational Civil Society in China J. Chen, 2012-09-01 This book discusses the penetration, growth, and operation of transnational civil society (TCS) in China. It explores impacts on the incremental development of China's political pluralism, mainly through exploring the influences of the leading TCS actors on the country's bottom-up and self-governing activist NGOs that have sprung up spontaneously in terms of capacities, strategies, leadership, and political outlook as a result of complex interactions between the two sectors.

International Law and the Use of Force Christine Gray, 2018-02-09 This book explores the large and controversial subject of the use of force in international law. It examines not only the use of force by states but also the role of the UN in peacekeeping and enforcement action and the increasing role of regional organizations in the maintenance of international peace and security. The UN Charter framework is under challenge: Russia's invasion of Georgia and intervention in Ukraine, the USA's military operations in Syria, and Saudi Arabia's campaign to restore the government of Yemen by force all raise questions about the law on intervention. The war on terror that began after the 9/11 terrorist attacks on the USA has not been won. It has spread far beyond Afghanistan; it has led to targeted killings in Pakistan, Somalia, and Yemen, and to intervention against ISIS in Iraq and Syria. Is there an expanding right of self-defence against non-state actors? Is the use of force effective? The development of nuclear weapons by North Korea has reignited discussion about the legality of pre-emptive self-defence. The NATO-led operation in Libya increased hopes for the implementation of responsibility to protect, but it also provoked criticism for exceeding the Security Council's authorization of force because its outcome was regime change. UN peacekeeping faces new challenges, especially with regard to the

protection of civilians and UN forces have been given revolutionary mandates in several African states But the 2015 report Uniting Our Strengths reaffirmed that UN peacekeeping is not suited to counter terrorism or enforcement operations the UN should turn to regional organizations such as the African Union as first responders in situations of ongoing armed conflict

Bridging the European Divide Joshua B. Spero,2004-10-20 Do middle powers matter geopolitically to great powers when confronting the unconventional twenty first century threats from nation states or nonstate actors By studying certain middle power politics in the heart of early anarchical and volatile post Cold War Europe we can better grasp the impact such middle powers have in the aftermath of September 11 2001 Bridging the European Divide explores how key regional middle powers perceived and advocated their political power options and tells the largely untold story behind the motives of significant middle power decisions and repercussions Such regional alignment decisions stemmed from the ideas opportunities and realities necessary to transform nation states amid acute regional uncertainty global upheaval and international systemic change In order to achieve a better understanding of how to bridge the post 9 11 gap between changes in material incentives and the role of ideas Spero smartly connects two different types of power politics ways of assessing security dilemmas and foreign policy decisions and reasons why middle powers and their geopolitical roles matter to great powers **Todd & Curti's the American Nation** Paul S. Boyer,1995 This book explores seven broad themes central to American history global relations the Constitutional heritage democratic values technology and society cultural diversity geographic diversity and economic development They provide a context for the historical events which will help the student understand the connections between historical events and see how past events are relevant to today s social political and economic concerns Themes in American history Throughout the book the student is asked to think critically about the events and issues that have shaped U S history Helping the student develop critical thinking skills is a key goal of the text Critical thinking and the study of history **The New York Times Index** ,1964 **U.S. News & World Report** ,1959 **Golden Days for Boys and Girls** ,1891 Yearbook of International Organizations 2001-2002 K G Saur Books,2001 A New English Dictionary on Historical Principles James Augustus Henry Murray, Henry Bradley, Sir William Alexander Craigie, Charles Talbot Onions,1901 **The Boston Globe Index** ,1992 **Arts & Humanities Citation Index** ,1997 **Webster's New World Dictionary of Quotations** Una McGovern,2005-04-08 One of the most comprehensive collections of its kind features more than 21 000 quotes from 3 500 authors arranged alphabetically by author with a complete keyword index mini biographies of the authors and notes on source and historical context **Scientific American** ,1903 **Forest and Stream** ,1894 **Religion Index One** ,1998 **New York Times Saturday Book Review Supplement** ,1969 **Altered States** Andrew P. Cortell, Susan Peterson,2002-06-18 Challenging dominant assumptions in international relations Altered States demonstrates that national political institutions change more frequently_ and less dramatically_ than is commonly thought and with important consequences for the political landscape Combining theory with solid empirical research_ including archival

evidence and interviews_the contributors explore the causes and consequences of institutional transformation in the United States Western and Eastern Europe Russia and the former Soviet Republics and Cuba Altered States highlights the dynamic and interactive relationship between national political institutions and reform minded policy entrepreneurs a perspective that will interest scholars and policy makers alike
